GC School Tax, Bond Election Saturday

Polls Open 9 a.m. to 7 p.m. on \$4,750,000 Bonds, 40c Tax Hike

A relatively quiet Granite City school bond and tax election campaign heated up this week with distribution of circulars which school officials immediately called untrue. The voting is set for 9 a.m. to 7 p.m. Saturday at all grade schools in the community unit district.

Data opposing the election, given out in the Nieninghaus school zone and scheduled for other neighborhoods, stems from "Granite City Parent-Teachers in Opposition to the School Bond Issue." Actually, the Granite City Area Council of Parent-Teacher Associations and PTA units favor passage of the two-part election proposal. School officials charged that the name of the committee, a dissenting group was made similar to that of the PTA council in an apparent effort to confuse voters.

Ballot questions are a 40-cent increase in the education fund tax rate, from \$2.15 per \$100 assessed valuation, and a 21-cent tax rate to

P-R will Compile School Vote Results

The staff of the Press-Record will compile returns of the special school bond and tax rate referendum Saturday in Granite City.

The polling places will close at 7 p.m. Saturday, and results will be relayed by telephone to interested persons who call the newspaper office (876-2000).

Finance \$4,750,000 bonds to construct a junior high school, two grade schools and two school additions.

The circulars were labeled erroneous because they describe the bond tax as a 40-cent increase from 21 cents, and because they describe the 40 cents as being for "administrative staff" rather than for the teaching staff. Pay of teachers and other school employees is the main item in the education fund.

No funds are projected for administrative offices or for additional administrators, contrary to the circular, and the administrative staff (which is 30% smaller than the national average) is scheduled to be reduced by two in June with the retirement and the completion of a special study, Sgt. Bob J. Davis told the Press-Record yesterday.

Citizen, State Recommendations
Among the allegations calling for exclusion of local citizens are excluded from the bond issue planning, and that the district has reneged on the building of

Auto Destroyed by Fire, Arson Suspected

Arson was suspected as a 1965 auto owned by Harold Bone, 3301 Village lane, was destroyed by fire while it was parked on Buenger blvd. next to his home at 10:15 p.m. Monday.

Madison county sheriff's deputies were told that Mrs. Bone was awakened by the blast of the auto horn, and when she looked out the window, the car was enveloped in flames. She also said she heard another auto drive away.

The Ponton Beach volunteer fire department extinguished the blaze.

Higher GC School Salaries, Costs Basis of Referendum

(Second of two articles)

Due to the mission of the Granite City school district, teaching of children, salaries represent the biggest item in its yearly budget.

And the upward trend in salaries in recent years is the dominant reason for the special school election to be held Saturday. A close second in importance is the proposed construction of a junior high school, two grade schools and two additions, discussed in the previous article.

The latest school tax rate of \$2.05 includes \$1.98 for education. The estimated rate for tax collection next spring is \$3.0288, including the present authorized maximum education rate of \$2.15.

If Saturday's vote is favorable, the estimate for next year's rate will be \$3.1978, including \$2.19 for education. Of the district-wide assessment totals, as is expected, about \$215 million.

The present overall tax rate for Granite City property owners, including all local-level government agencies, is \$4.29 and may total \$4.71 or \$4.87 next spring.

Seek Higher Rate Limit
One of the two ballot questions Saturday will be:

"Shall the present maximum school tax rate for educational purposes of 2.15% upon the full fair cash value of taxable property of the Community Unit School District No. 8, Madison county, Ill., as equalized or assessed by the Department of Revenue, be increased to a maximum of 2.55% on such taxable property?"

It is not planned to use the full 40-cent rate boost immediately. But when it is utilized, the total school rate would advance to \$3.63, including \$2.55 for education. This compares with the combined school-city-township-parkeve-county tax rate in Granite City to \$5.32.

Three File in Race for Senator

Simmons, Briggs, Ford First Candidates for Paul Simon Vacancy

Three candidates for state senator of the 53rd District, a post left vacant by the Nov. 5 election of State Sen. Paul Simon of Troy as Illinois lieutenant governor, filed petitions of candidacy this week following the opening Monday of a seven-day filing period for a special March 11 primary.

Petitions of candidacy for places on the Democratic and Republican primary ballots will be accepted by the office of Secretary of State Paul Powell through next Monday. Candidates will have through Dec. 14 to withdraw.

Filing two petitions in Springfield Monday were Walter T. "Buck" Simmons, 1028 Third street, Venice; Harry Briggs, 4265 Lake Drive, and Robert L. Ford, Wood River. All are Democrats.

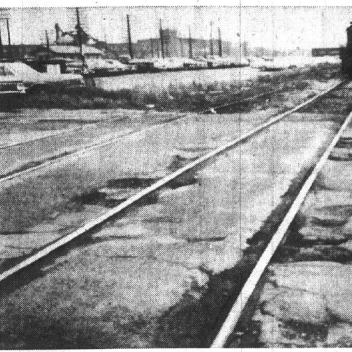

As the filing got under way, an order denying a petition for an injunction that would have blocked the special senatorial election and prohibited the secretary of state from accepting petitions, was entered in circuit court at Edwardsville by Chief Circuit Judge Harold R. Clark.

Claim No Vacancy
The proceedings were filed nearly two weeks ago by former Madison county state's attorney Dick H. Mudge of Edwardsville and his political associate Richard Allen, city attorney of Granite City, who contended in their petition that no vacancy in the senatorial post actually exists because Simon's resignation will not be completed until a vacancy exists.

The two attorneys charged that election law does not permit the calling of a special election until a vacancy exists. Call for a special primary and election to fill the vacancy was issued by Gov. Samuel H. Shapiro on Nov. 12, a week after the Nov. 5 general election in which Simon was elected to the state post.

Denying the plea for a temporary injunction, Judge Clark indicated the court would

Petitions Going Out Fast for GC Elections in April

Two more incumbent Granite City aldermen were in the 1969 city election race for re-election today after obtaining petition forms from the office of City Clerk Homer Pendleton.

Pendleton said petitions were obtained by Ford Johnson, 2501 Lynch avenue, incumbent alderman of Ward Seven, and by R. E. Robertson, 3607 Benton street, who formerly was alderman in Ward Seven, but now is in Ward Four as the result of recent redistricting procedure.

Alan LeMaster, 2307 Logan street, a member of the Granite City police force, filed his resignation Dec. 1, also obtaining petitions yesterday as a candidate for alderman of Ward Four.

The filing period for the municipal elections next April 1 will open Dec. 23 and continue through Jan. 27.

Meanwhile, Richard Fry, alderman of Ward Six, announced that he will not seek re-election next year because, he said, he has insufficient time to give the office proper attention. Fry announced his plans in a prepared statement.

Parmley Backs Schuler
Soon after Fry's action, Gerald Parmley, an alderman of Ward Six, said that he will support Paul Schuler, present member of the Granite City park district board who has said he will not seek re-election to that post in 1969, but instead back the Canadian-born member of the Sixth Ward, Schuler took out petitions for the aldermanic contest last week.

Parmley said that he had been called several times by persons inquiring if he planned to be a candidate for mayor, and that he has no such plans.

The alderman said he will lend his support in the mayor's

Military Rites are Pending Here for Pfc Andy Heiman

Funeral arrangements are pending the arrival here of Pfc. Andy Heiman, 20, who was killed in action Saturday at Quang Loy, Vietnam, an area north of Saigon.

Survivors include his wife, the former Janice Grete of Edwardsville and the serviceman's parents, Mr. and Mrs. Sherlin D. Heiman, 1412 Oakland avenue.

Pfc. Heiman was fatally wounded by fragments of an artillery shell, directed at a hostile force, when the combat infantryman was returning to base camp after engaging the enemy. He was the 25th Quad-City serviceman to die as a result of the war in Vietnam and the 2nd local man killed in action since December 1965.

A graduate of Granite City high school, Pfc. Heiman was employed at Olin Matheson Corp. in Alton prior to entering the Army March 28, 1968.

New pay agreements took effect. All employees agreed to a 3% raise to expire June 30, 1969, and negotiations are to start shortly after New Year's. Questions were heard from taxpayers in "Why do the

School Break-in, House Burglaries Occur in Area

A school break-in at Madison, the third in two days in the Madison-Venice area, was reported to Madison police early Tuesday.

The burglary, and extensive vandalism occurred at Louis Baer school, McCambridge avenue and Rhodes street, where intruders ransacked every room in the school, littering the room with papers.

Police said a soda machine was pried open and the contents of the coin box taken. Machines dispensing note paper and pencils also were broken open and pencils were dumped in a waste basket.

The principal's office was ransacked and a lock on a storage room damaged by an unsuccessful effort to get into the room.

Police said the intruders wrote on a blackboard before leaving.

"Bad Trip—Today This, Tomorrow the World... Up with LSD," "Mad Dog."

The words "Mad Dog" also were written on a blackboard in the Madison junior high school which was burglarized

Madison's 'Sir Kelly' To Patrol Schools

Burglars and vandals who break into Madison schools in the future will have Madison's police "Sir Kelly" to deal with, police and school officials announced today.

Because of a growing number of school break-ins resulting in thefts and extensive damage by vandalism, plans for nightly patrol of four of Madison's larger schools by K-9 Officer Ronald Grzywacz and his dog, "Sir Kelly," have been authorized. Police Chief Emmet Piaz said.

Piaz said School Supt. Raymond Dragich has given Grzywacz keys to Harris school, Madison junior high school and the Madison senior high school to make nightly inspections at all four buildings.

Grzywacz will make unscheduled stops at varying times during his nightly duty tour, will walk through the buildings and permit Sir Kelly to run loose to rout out any intruders.

The action followed a break-in at the Madison junior high school last weekend in which coin machines were looted and damaged caused by vandalism.

A break-in Monday morning at Louis Baer school where every room in the school was ransacked.

Several break-ins at Madison senior high school had been reported previously. Burglars broke into the Varsity basketball school last weekend, pried open a cabinet safe and stole \$263 in receipts from a basketball game.

Madison Police Arrest Three In Tavern Melee

Madison police arrested Larry Webb, 28, of 2008 Washington avenue, and Charles Howland, 25, of 1438 Seventh street, Madison, at 2:35 a.m. Tuesday as the result of a disturbance at the Town Tavern, 1312 State street.

Both were charged with disorderly conduct and an additional charge of assault, and battery was filed against Webb, police said.

Twenty-four hours later, almost to the minute, Madison police arrested Luther Howland, 39, Charles' brother, at the Town Tavern, and said he was considered a suspect in an attempt to burn an auto owned by Eugene Stagg, operator of the tavern, while it was parked at the rear of the Town Tavern about 1:30 a.m. yesterday.

Police said that Charles Howland and Webb were arrested early Tuesday morning after they became involved in an argument, the tavern with persons known only as "Jerry" and that the argument progressed to the point where Howland and Webb threw beer bottles at the man. Stagg told police that Webb grabbed him around the throat during the disturbance.

Signed Complaints
As a result Stagg signed complaints against Howland and Webb. Both were released on bonds later Tuesday morning.

Late Tuesday night, police reported, they were called to the Town Tavern where they arrested Charles Howland and Luther Howland at Stagg's request. The brothers were warned not to return to the tavern.

An attempt to burn Stagg's auto was discovered at 1:50 a.m. yesterday. Police said a railroad fuse had been thrown into the front seat of the car, but the fire was extinguished with damage limited to the car seat.

About 3:20 a.m. a cruising police saw Charles and Luther Howland, re-enter the Town Tavern. As officers entered the place, they said, Charles ran out the rear door, but they arrested Luther Howland on a charge of disobeying an officer. Police said they later found several fuses in Howland's car.

Luther Howland was released on \$25 cash bond later yesterday, pending a hearing in magistrate court.

GC Steel Workers 30-Minute Club Confirms Pledge

The Granite City Steel 30-Minute Club has pledged \$57,000—the same amount as contributed this year—to the 1969 fund-raising drive now being concluded by the Tri-Cities Area United Fund, Inc. was announced today by Carl Bazzenas, chairman of the club's board of governors. The pledge was anticipated and was tallied in last week's 81.6% campaign report.

Total pledges to all charitable enterprises supported by the 30-Minute Club next year again will be \$75,000, even though anticipated income will be slightly over \$60,000, barring unforeseen unemployment at the local plant.

The pledges were authorized Monday when the board of governors held its 1969 budget session. The annual meeting, usually conducted in October, was postponed pending completion of major union contract negotiations.

Chairman Bazzenas said, "Although our 30-Minute Club's income for the year 1968 fell to just over \$64,000—primarily because of the strike and layoffs during the year—the club has honored its 1968 pledges totaling \$75,000. It did this by using some \$7000 cash remaining from 1967 and by taking about \$3000 from its sinking fund reserve."

"Obviously, our 1969 pledges also will have to be paid partially from our reserve, but we hope that in a couple of years our income will more closely match our pledges."

"However," the chairman continued, "in deciding what we would do in 1969, our board, which is made up of both union and salaried representatives, felt it is important to support these various charities as best we can—even if it means depleting our reserve to some extent."

About 89% of Granite City Steel's employees are members of the 30-Minute Club. Members contribute a half-hour's base pay each month by payroll deduction to be used for various welfare, charity and educational purposes, with the largest share allocated to the 19 agencies supported through the annual Tri-Cities United Fund campaign.

Lt. Fields Training To Fly Helicopters

First Lt. Randall L. Fields, 22, has completed a 16-week helicopter pilot course at the Army Primary Helicopter School at Fort Wolcott, Texas. He was trained to fly Army helicopters and learned to use them in tactical maneuvers.

He is presently undergoing advanced flight training at the Army Aviation School, Fort Rucker, Ala.

His wife, Mary, lives at 1222 Grand avenue, Madison, and his parents, Mr. and Mrs. Lloyd L. Fields, reside at 3040 Denver street.

Bowling Alley Offers Free Games for Toys

Three free games of bowling will be given to any person who donates a usable toy to the Bowling Bowling Lanes beginning tonight through Dec. 19.

The toys will be donated to the Salvation Army to be given to needy children at Christmas.

In the event there are no open alleys at the time of the donation, a certificate will be issued and may be used at a later date.

Davis Urges Large Turnout, Calls School Need Critical

The special school election Saturday may bring out the largest number of voters ever to participate in a local school election, in the opinion of School Supt. B. J. Davis of Granite City District Nine. He voiced hope today that a "determined effort to inform the entire community of the needs and proposed solutions" will produce such a voter turnout.

He said the two proposals, issuance of \$4,700,000 in building bonds for school construction and a 40-cent increase in the maximum tax rate for the educational fund to \$2.35, are the recommendation of a citizens' committee headed by Leo Konzen, a local attorney, and Jon Mullin, a local teacher.

The committee was commended by the board of education and Supt. Davis for the thoroughness of their study, conducted over a six-month period.

"The proposed building program calls for a classroom and office addition to the present Coolidge junior high school which will become part of a high school complex housing grades 9-12," Supt. Davis related. "A physical education facility would also be added to the existing senior high gym."

Combine Schools in 1971
"This realignment of the grade structure would be made in 1971 when the new junior high would be completed. The junior high included in the building plan would be built on a 65-acre property south of Bowland and on Nantuxi road. It is to be constructed in such a way that it can be converted through addition of special class areas to become a second senior high school. An elementary school to house 700 pupils would be built on the same property."

Construction in Stages

Supt. Davis said, "Construction of a second senior high school in such stages is the most fair way to all concerned to meet a critical need. The school district does not have, nor is it likely to have because of continued growth, sufficient available bonding capacity to construct at one time a high school capable of offering an educational program equal to that offered at GCIS."

"The alternative would be a high school with a limited program. It is not felt that this would be fair to those pupils assigned to such a building. The need for another high school is rapidly becoming critical. Present GCIS enrollment is approximately 3000, larger than the combined enrollment of McDonough, Blackburn and Illinois Colleges."

"With an immediate start on construction the proposed elementary buildings probably could not be opened until September 1970 and the junior high the following fall."

Present Budget Unbalanced

"The need for an increased maximum tax rate is indicated by the fact that the present maximum rate does not provide sufficient income to fully support the present year's budget. The administrative staff is preparing to negotiate new contracts for next year with all employee groups. Without an increased tax rate, there would be little room for negotiating when present contracts expire. It has been pointed out that per-pupil cost of education is less in Community Unit No. 9 (\$398) than the national average (\$419) or the Illinois average (\$421)."

"Efficiencies in fiscal management and purchasing procedures have made this possible, but rising costs and increased enrollments have put the district in a position where increased income from taxes is a necessity," the superintendent said. "This does not mean that the maximum rate would be used immediately, but there is no question that the present maximum is not adequate to continue operating or improving our present educational program."

"Good Education Costs Money"
Davis expressed confidence that "the people of our community will face this problem realistically. A good education costs money and the community recognizes this."

"We have made every effort to fully inform the people of our needs and their remedies."

Our speakers have gone out to speak to groups as small as one—and its costs. "The decision will be made by the community on Saturday. I feel sure that the people will be tried to present to again acknowledge that they can make no better investment than in the education of their children."

Optimist Yule Tree Lot to be Opened

Arthur D. Roseman, chairman of the Granite City Optimist Club's Christmas tree sale lot, said today the trees are expected to arrive sometime today. The sales lot is located in the 2300 block of Madison avenue between the post office and fire station.

Roseman said the club is expecting 750 Scotch pines and 2000 balsams, decorated wreaths and pine and balsam rope.

The lot will be manned by members of the club and will be open from 10 a.m. to 10 p.m. each day. Proceeds will be used for the Optimists' youth activities programs.

W. Granite Youth Group Hears Solenberg

The West Granite Youth Development met Monday evening at the Washington school. John Solenberg, United Fund executive, was guest speaker and explained the work of the fund. Mrs. Dolores Keston, chairman, reported on the recent bake sale at which \$42 was realized and given to the Salvation Army for the Tree of Lights. Mrs. Freda Hulst, vice president, was in charge at the meeting.

conduct a full hearing on the issue if the petitioners so desired. Mudge told newsmen that he intends to request a full hearing and that if an adverse decision is received in that instance, an appeal will be taken.

The 53rd Senatorial District encompasses the Quad-City area and six other Madison county townships embracing 144 of the county's 186 precincts. The district includes Granite City, Nameoki, Venice, Chouteau, Alton, Edwardsville, Godfrey, Wood River, Pin Oak and Jarvis townships.

Political sources have predicted a "wideopen scramble" for the senatorial post, although the remainder of Simon's term will have less than two years to run by the time the election is held. The senator post will be subject to elec-

tion again in 1970. Simmons, who was the first to file his petitions, is chairman of the Madison County Democratic Central Committee and is expected to have the backing of the Venice-Madison Democratic organization headed by Mayor John E. Lee of Venice and Mayor Stephen Maers of Madison.

Observers point out that it is unlikely that Simmons, who holds his post as county committee chairman by virtue of Lee-Maers support, would file as a candidate for the office unless he had a political nod from the organization leaders. Reports that Simmons also will have the support of Lt. Gov. Elect Simon in his bid to fill the senatorial vacancy have been current in political circles, but Simon is not expected to make any statement in the ap-

proaching campaign until after the filing period ends. Briggs, 47, is a native of Tulsa, Okla., but has lived in the Quad-City area 45 years. He is supervisor of Nameoki township and is now serving his fourth term in that office. He has served as chairman of the Legislative committee of the County Board of Supervisors for the past ten years.

He was an unsuccessful candidate for the Democratic nomination as state representative of the 55th District in the June primary election this year. Ford, 41, is assistant supervisor of Wood River township and, like Briggs, also was an unsuccessful candidate for Democratic state representative last June. He has been a supervisor since 1963.

During his bid for state representative, Ford campaigned on a proposal to lower the voting age to 18 and to require annual instead of biennial sessions of the General Assembly.

Second Production of La Boheme Postponed

The production of "La Boheme" which was to be presented this weekend at the Richmond Theatre, Richmond Heights, Mo., will be postponed until January. Two Granite Cityans have the lead parts, Mrs. June Branding and Mrs. Nita Dale, who portray "Mimi" and "Musetta."

Members of the newly-formed group, the Federation of Artistic and Musical Endeavors, East, which is affiliated with the Arts and Education Council of Greater St. Louis, will be the recipient of a building in Alton to use for practice and to present to the public several productions.

The next show will be given from the Alton location which is now being remodeled to also house an Art Gallery.

Births Decline, Deaths Up Three in November

A decline in the number of births and a slight increase in the number of deaths in the Quad-City area were recorded during November by Granite City Clerk Homer "Cal" Pendleton who compiles vital statistics for the area.

Births totaled 82, compared to 107 in October and 91 in November of last year. There were two stillbirths during the month.

The birthrate remained ahead of last year, however, with 978 births recorded during the first 11 months of this year compared to 904 for last year.

Thirty-six deaths were recorded, three more than in October and six more than in November of last year. The death rate showed a decrease for the 11-month period, however, with a total of 401, compared to 443 last year.

The 107 births in October was the highest for the year, with July coming in second with 99, and June third with 91. Recorded for other months were January, 84; February, 84; March, 83; April, 86; May, 94; August, 88; and September, 90.

The highest death rate was reported in January and April with 42 each, while there were 40 in July. Other months included February, 39; March, 32; May, 32; June, 36; August, 34; and September, 35.

Elks Lodge to Meet

The next regular meeting of Elks Lodge 1063 will be held Tuesday at 8 p.m. It was announced today by Robert C. Martin, secretary, who said the district deputy and Grand Exalted Ruler Charles Wassem will pay a visit.

State Reports on Traffic Deaths

Traffic fatalities in Illinois from Nov. 1 through 15 totaled 96, according to official reports released today by the Illinois Department of Public Works and Buildings. Norbert J. Johnson, director, said this was a three per cent decrease from the 99 deaths reported during the same period in 1967.

Twenty-six fatalities occurred in Cook county, seven in Madison, six in Kane, four in Lake county and four in Winnebago county.

The 1968 provisional death toll through Nov. 15, which now stands at 2165, represents an increase of less than two per cent over the 2133 traffic deaths reported for the same period in 1967.

Manufacturers Board Supports Bond Vote

The board of directors of the Manufacturers Association of the Tri-Cities announced yesterday its public support of the Granite City school district bond issue and tax rate proposals.

A. P. Steinhauer, works manager for American Steel Foundries and president of MAT, stated:

"Although these are times that require the most judicious use of tax resources available to maintain the stability of our industrial economy, the need to continue excellence in our local school system requires all citizens, both corporate and individual, to support well considered tax expenditures. "These two referendum issues will give the school board the authority to make such expenditures in the amounts and at the times required in the future."

PRESS-RECORD SPORTS

Page 6 Thurs., Dec. 5, 1968 Granite City PRESS-RECORD

Alton No Match for GCHS Mat Squad, 54-4

Despite the fact that the Alton Red Birds came into town with 10 returning lettermen from last year's mat squad, the Granite City high school Fighting Warriors wrestling team crushed the visitors 54-4 Tuesday evening at the local gym.

It was the second victory in two outings for GCHS, which won a quadrangular last week over Peoria Richwoods, Savanna and Champaign Central.

This is only the second year that the Red Birds have competed in the sport.

Winning for the Warriors were Bruce Allen (86 pounds) in 30 seconds, Bob Miller (103) in the team's fastest time of 18 seconds—and a new school record—At Bridgeman (112) in 3:25, Mike Christopher (127) in 3:32, Roger Hayes (133) in

1:16, Tom Niebur (138) in 5:05, Sam Nighghossian (143) in 1:59, Ricky Smith (154) in 1:08, Frank Mehelic (165) in 5:40 and Bob Pates (180) in 1:32.

There were draws involving Steve Ferguson (120) 6-6, and Mark Mizerski (heavyweight), 3-3.

Yule Party Here for Conference Officials

The Southwestern Conference held its annual Christmas party at the Granite City high school cafeteria Monday evening, as it has done for the past six years.

All seven member schools were represented at the smorgasbord dinner.

There were 250 present, including coaches and their wives and school administrators and their wives.

Warrior Five Romps, Awaits Collinsville

GCHS made it look easy Tuesday night in racing to an 86-70 non-league win at Breese Mater Dei, but expects a more formidable task when its opens Southwestern Conference competition by hosting Collinsville tomorrow night. The Warrior-cage record is now 2-0.

Gary Simpson came through with 28 points after tallying 35 against Springfield Griffin in the team's opener last week. He sank to of 19 from the floor for 53% and was perfect at the free throw line with eight out of eight.

Rich Hutchings cleared the boards 12 times, with Simpson getting 11 rebounds.

"Defense is the thing I was most happy with," said Coach Don Deterding, citing this as the deciding factor in the game.

In the third period at one point, Granite City stopped the enemy at midcourt five times and in less than 40 seconds scored 10 points. Quarter leads were 15-13, 46-27 and 65-42. Simpson and John VanBuskirk spearheaded the 10-point burst.

Deterding said Van Buskirk was alert on defense and was "always in the right place at the right time."

Zone Press Effective
The Warriors used a 1-2-2 zone press, also called a trap press. If it is working properly, it forces the ball handler to move around two players at a time. He then often gets over-anxious and passes badly or commits a moving violation.

GCHS had only two ball turnovers in the first half. However, in the last quarter, the Warriors faltered and had seven turnovers, getting only 15 shots at the basket. In comparison, the home team scored 38 points and got 24 shots.

Looking toward the big game Friday against Collinsville, Deterding said, "I think our boys will have more confidence in themselves than they had last year, and we expect to give them a good game. You've got to have confidence to even have a chance."

Scoring for the Warriors were VanBuskirk 18, Hutchings 11, Dave Meier 16, Jeff Boyles five, Tim Moore four, Rick Logan two and Larry Pirtle, two.

As a team, they hit 36 of 63 for 57% from the field and 14 of 20 at the free throw line.

Madison Bowling Club Leagues Being Moved

The Madison Bowling Club structure recently was remodelled, and some renovation work was conducted on the interior last summer prior to the start of the fall-winter season, Jerry Boyer, club manager, and Lester Caton, another operator, were unavailable for comment.

The 10-team Catholic Men's League, which bowled on Monday nights, arranged to continue action at 8 p.m. Sundays at the Bowland alleys at a league meeting last night at the Knights of Columbus club.

The league is seeking additional bowlers, and those interested may contact Al Sanders, league president, 877-4197, or Frank Klerick, 877-4022.

Lack of sufficient business to meet expenses was blamed for the action. The front of the

Soccer Warriors Shut Out Lutheran North Squad, 4-0

Leading 2-0 at halftime and scoring two quick goals in the first five minutes of play in the second half, the Warriors shut down Lutheran North 4-0 Tuesday at the St. Louis school field.

Bobby Galvin started the Warrior scoring as he took a pass from Mike McGovern and drilled the ball toward the left side of the goal with a hook shot as the goalie leaned to the right.

McGovern followed with a goal as he dribbled past the fullback and outmaneuvered the goalie to tap in the ball on the right side of the net.

Goalie Danny Hodge made several diving saves and Half-back John Winfield smarted off the enemy's soccer drives to give command of the ball back to the Warriors.

Galvin again started the scoring in the second half, followed shortly by a one-pointer by Herb Milton. For the rest of the game, the Warriors rested and others had a chance to play.

Coach Tom Wyrostek said all 23 who dressed for the game were able to play.

Starters were Milton at outside right, Cecil Barnes inside left, Cecil Barnes inside left, John Winfield left halfback, Rick Lesko right halfback, Harold Thiel center halfback, Rick Schardan right fullback, Jim Rollins left fullback and Hodge.

Bunker Hill Team Beats Venice, 77-51

The defense presented to the Venice Red Devil basketball team Tuesday evening at Bunker Hill was just too much for the local squad, which was held to only 12 points in the first half and lost the game 77-51 to the Minutemen. Quarter scores were 19-4, 42-12 and 56-33.

The Red Devils captured the third quarter 23-14 but again saw the deficit expand in the final period.

Fessor Gray led the Red Devils with 28 points, followed by Marvis Houllis with nine, and Eddie Gardner nine, Mike Guffy three and Harold Genterman two.

Coach Bill Ohlendorf said, "Everything went wrong in the first half. We had several ball turnovers, foul shots and mistakes."

"It also didn't help our morale when they shot 72% that half while we were having our difficulties. They played good ball, and we didn't."

The young Venice quintet is short on experience, height and speed this season.

Coolidge Grapplers Outscore Prather In Opener, 37-18

FIRST DEER of his hunt-
ing career was bagged by
Terry Rigby, 17-year-old
student of Granite City high
school, last week. The deer
weighed 108 pounds field
dressed, and was a four-
point buck. It was killed at
Crab Orchard Lake in Wil-
liams county. Others in the
party were Herley Barton
sr. and jr. and Floyd Gram-
ham. The kill was made on
the first shot by a 12-gauge
Browning automatic.

Hunters Bagged 6093

Deer; New Season

Hunters bagged 6093 deer
during the first half of the 1968
season, the Illinois Depart-
ment of Conservation reported
today. That portion of the
season began on Nov. 22 and
ended on Nov. 24. The second half
of the season is from Dec. 6
through Dec. 8.

The kill was 493 fewer ani-
mals than were harvested dur-
ing the first four days of the
1967 season but it is 153 more
deer than were taken during
the first portion of the 1966
season. Last year's season was a
continuous 6 days whereas the
1966 season was divided into
two parts.

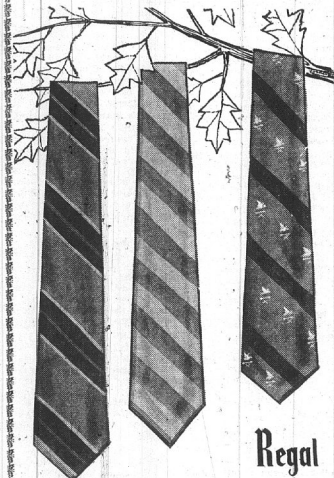

This year 1734 deer were
bagged in the 19 northern coun-
ties where hunting is permit-
ted, 1882 were taken in 26 cen-
tral counties and 2777 in 26
counties in southern Illinois.

The largest deer bagged was
a 287-pound buck killed in
Mason county. Biologists esti-
mate that the animal would
have weighed between 320 and
325 pounds on the hoof.

One fatal accident occurred.
According to reports received
by the Department of Conserva-
tion, a 16-year-old hunter was
shot by a companion when a
deer ran between them in Jo
Daviess county.

Governor 'Concerned' Over Levee Project

Gov. Samuel H. Shapiro expressed to the East Side Levee and Sanitary district yesterday the "deep concern of this office" over delay in completion

of a tunnel reinforcement project in the East St. Louis riverfront levee, and said he had been informed the present condition of the tunnels create a "dangerous situation" under certain circumstances.

In a letter presented to the regular meeting of levee district trustees, Shapiro said he had been informed of the situation by the U. S. Army Corps of Engineers at St. Louis which, for the past two years, has been pressing the levee district to clean out and reinforce four large tunnels that run through the levee near the North Pumping station and contain intake pipes of the East St. Louis & Interurban Water Co. system.

Copy of a letter sent to the governor by Advir Kraemer, chief engineer of the levee district, relating background of the project and the financing difficulties involved also was presented to the board. Kraemer's letter informed the governor that Shapiro's understanding that money had been provided for the work was in error and that levee district officials questioned the legality of spending tax money for improvement of facilities owned and operated by a private enterprise.

District Responsibility
Army engineers have notified the levee district that the tunnel job is the levee district's responsibility and that the work must be done as soon as possible since condition of the tunnels poses a threat to the riverfront levee. Engineers say the tunnels are silted and that the concrete is cracked in some places. Under heavy pressure from a high river stage, the tunnels could break and wash out the levee at that point, they say.

In a series of meetings between levee district officials and representatives of the water company last year, an agreement was reached in which the company said it would pay \$50,000 of the cost, with the levee district to assume the remaining \$50,000 of the estimated cost.

Since then, however, estimates of the project cost have increased to about \$125,000. Kraemer told the board yesterday that the water company refuses to assume any cost above the \$50,000 originally determined.

"This means that the levee district is going to have to spend more than \$80,000 in tax money to renovate these tunnels which are the property of private enterprise," Kraemer told levee board members. "I don't think this is legal," he added.

No Tunnels Available
The levee district has pleaded that it has no funds to undertake this work, as well as a number of other projects throughout the district in both Madison and St. Clair county. The district ended the month of November with a cash balance of only \$17,997, although total receipts during the month amounted to \$478,921 most of it in St. Clair county taxes for 1967.

Disbursements during the month, according to a monthly report by district treasurer Thomas Staicoff, totaled \$489,165, including assignment of \$98,975 to the bond and interest sinking fund.

The levee board also approved a request of the Mitchell Athletic Association for a two-year renewal of a lease on land owned by the levee district on the southeast corner of Maryville road and Old Alton road.

A request by the Illinois Power Co. for an easement to install a gas line along the Namoklee area drainage ditch also was approved.

The next regular meeting of the levee board will be held Jan. 8 when board members will reorganize. The meeting will convene at 10 a.m.

The Southern Illinois University TV stations, WSU-TV and WUSI-TV, offer instructional television courses for pupils in kindergarten through the eighth grade in the Carbondale and Olney areas.

MORE ABOUT Higher GC

schools spend so much more than the city government?" Without minimizing the importance of the role of either agency, it is a fact that the school system requires more manpower—and womanpower—than does the municipality.

Much of the reason why annual school expenditures have passed \$11 Million in District No. 1 is obvious from a glance at the payroll.

The staff includes 10 administrators, 11 consultants and supervisors, 27 principals and assistants, 641 teachers, 12 nurses, 47 secretaries, 83 cafeteria workers, 15 members of the maintenance and repair staff and 90 custodians.

A five-year comparison shows that enrollment increased 16%, from 12,250 in 1962-63 to 14,250 in 1967-68. This 2000 gain averaged 400 more students a year.

Property taxes rose 33%, from \$4,224,162 (\$2.23 rate times \$1,888,381,064 assessment) to \$5,739,393 (\$2.76 rate times \$2,079,496 assessment).

These figures included, for the education fund, \$3,300,167 in 1962-63 (\$1.72 rate) and \$4,154,347 in 1967-68 (\$1.98 rate), up 26%.

The overall operating budget rose from \$6,530,385 to \$9,959,800 during the same period, a difference of 52%.

Income from sources other than property taxes, primarily state aid, rose from \$2,206,223 to \$4,220,497, a gain of 90%.

Citizens' committee recommendations for a 4-cent education fund rate hike and a 21-cent rate boost for bond principal and interest to finance \$4,750,000 in new buildings would amount to a record tax increase of \$1,235,000 a year, including \$848,000 for education and \$445,000 for construction.

Some taxpayer opposition, apparently unorganized, has developed over the size of the package and the location of proposed new facilities.

Indirect dissatisfaction has been linked to the size of the administrative staff and the decision this year to move the main office to a combined office-warehouse center in building at 20th and Adams street.

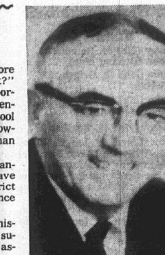

School officials answer by saying more money is essential if educational quality is to be maintained and improved; the new warehouse already has brought significant savings through the ability to buy supplies in larger quantities; the ratio of administrators-to-employees is low rather than high when compared to other school districts; and 1967-68 spending here averaged \$588 per pupil, compared to a national average of \$619 and an Illinois average of \$621.

As to the location of new schools, the officials say they are intended to benefit all students, all neighborhoods and people of all walks of life, whether or not they have children in school.

In following recommendations of citizens, of the Southwestern Illinois Metropolitan Area Planning Commission and of its administrative staff, the school board decided to include the construction regarded as most necessary and to seek support from throughout the district rather than specific areas.

For example, the board could have delayed a four-classroom addition to the view grade school and added it to the ballot, but instead proceeded with the project this fall.

The two ballot proposals have won the endorsement of a number of Parent-Teacher Associations and other organizations, the most recent being the ex-

Swift Aid for GC Family Made Homeless in Fire

"The Lord moves in mysterious ways." How many have voiced this thought-provoking quotation?

On Dec. 1 the home of Mr. and Mrs. Harry Glass, 2308 Rodger avenue, was destroyed by fire while, ironically, Mrs. Mary Glass, a Girl Scout leader for Frohardt Browne Troop 861, was attending a scout "festival of giving" program at Nameoki school with her troop and co-leader, Mrs. Mary Spilner.

The program is sponsored by all troops in District Four to give assistance to the needy at Christmas. Mrs. Glass was on her way home when she decided to stop for a gift for a leader's Christmas party which was held Monday evening. When she arrived, her home was gone, bringing to mind Proverbs 19:17, "He that hath pity upon the poor lendeth unto the Lord, and that which he hath given will be paid again."

Although the family is still in a state of shock and disbelief, before the week is past friendship and the good will of their neighbors will lighten their burden. Church members, neighbors, friends, scouts and leaders have opened their hearts to the family, and clothing, linens and other household items are pouring in.

The church members and neighbors are working to replace lost articles, and the girls are adhering to their scout promise and the third scout law in "lending a helping hand" through donations. The response has been described as tremendous.

Staying With Relatives

They are living with Mrs. Glass' parents, Mr. and Mrs. Harry Holt, 2816 Palmer avenue, and will move into a home on Buxton avenue this week end. But they have plans to rebuild on Rodger in the near future. They will have a stove and refrigerator but still need other household.

The Glasses have a daughter, Mrs. Betty Martin, residing in Arkansas, son Harry, of Rural Route One; and Dawn Marie, who is in the second grade at Frohardt school and is a member of the troop which her mother leads.

Glass is employed at National Lead Co. and Mrs. Glass is a nurse's aide at St. Elizabeth Hospital. They are members of the Church of Christ, 2130 Clark avenue.

With the Thanksgiving spirit still lingering in local residents' minds, and Christmas "just around the corner," such assistance by Quad-Cityans is not considered surprising. But similar instances of help for those less fortunate have occurred here frequently, including other seasons of the year.

"The Lord does move in mysterious ways," the Glasses are convinced. They lost everything but a few cherished photographs, but believe they gained a deeper understanding of people as well as "an abundance of love" from numerous well-wishers and friends.

City Critical of Traffic Lights Along Nameoki Rd.

Granite City council members called for a showdown with the state highway department over the type of traffic signal light installations along Nameoki road at the Victory drive and the East 25th street intersections.

Alderman Bartosiek was first to criticize the installation during Monday night's council session, saying the lights were supposed to have been installed to be actuated by pedestrians and also that they were not synchronized.

"These lights flash green to red when there isn't any traffic on the side streets and continue that way all night when traffic on the side streets is extremely light. This delays the flow of vehicles on Nameoki road. I can't understand what the state highway department has done."

"It's silly to hold up traffic," Mayor Partney replied the state had engineered the installation, and said the state contended the push button type light was not proper at the two locations because of the large number of children who would play with the signals.

Alderman Fry called for the showdown. "Let the state highway department show us the law that says we can't have push button lights there. We have them on Madison avenue and 20th street. That was the reason for the lights at Victory drive and East 25th street, so the pedestrians could get across."

"And while we're at it, let's ask why we can't have the signals at the traffic lights at the Johnson - Nameoki - Peeling road intersection, and the law there that prohibits this type of installation."

The motion was approved, with the mayor to write a letter to Robert Kronst, district highway engineer for the French Village district.

Galvanized Sheet Prices Increased By GC Steel Co.

The Granite City Steel Company's base prices for galvanized sheets will be increased 38¢ a ton, or 40¢ per 100 pounds, effective with shipments Monday, Dec. 16, it was announced here today.

The increase amounts to 9% on the company's galvanized products which include Strongbarn and Strongspan galvanized roofing and siding, Softform galvanized sheets, galvanized culvert sheets and galvanized grain bin sheets.

Whitmer Calls for Meeting with Retailers on Downtown Program

Long-awaited improvement of the downtown business district moved a step forward Monday night through the demands of Alderman Whitmer for a full-scale council meeting with representatives of the retailers to work out a cooperative program.

Whitmer's remarks that he didn't want to hear any second-hand reports, but wanted to get the merchants' ideas firsthand, brought protests from other aldermen, who said reports by the aldermen of the wards involved always have been routinely accepted.

But, Whitmer stuck by his guns and said he wanted to hear for himself exactly what the merchants want done, how they expect the city to cooperate and what they are willing to do themselves.

Council members finally agreed, and Mayor Partney was asked to arrange the meeting. Whitmer's motion for the meeting was seconded by Fry.

Resentment Expressed Fifth Ward Alderman Basarich told Whitmer the downtown district through recent redistricting, "now is in our ward, and I resent your calling any reports second hand. It's in our ward and we have a lot to say about it. You take the ward aldermen's reports on street and sidewalk repair needs. What's the difference in this?"

Moertlen, who went from the First Ward to the Fifth Ward under the redistricting, added that Whitmer's remarks concerning "second hand reports" cast a reflection on the representatives of the ward.

"We could do a better job with a small committee, rather than the full council," he added. Whitmer held fast.

"This isn't just a ward. This is the downtown district. It's important to the whole town. This is different than the ward aldermen presenting a report on a street. I want to hear from the merchants directly on just what they want and what they expect from the council," Whitmer said.

Whitmer's companion Second Ward alderman, Bartosiek, agreed, and said a meeting had been suggested about three months ago to include the First, Second and Third Ward aldermen, when the business district was in all three wards.

"I talked to several retailers at that time and they weren't too interested in the Urban Renewal program proposal since it didn't include too much of the business district."

The meeting was never arranged. Mayor Partney said he also had talked to representatives of the retailers at the same time, and that the meeting was delayed as the merchants hoped to raise a fund of about \$500,000 to work to develop an overall

plan for the business district. The mayor added that he had not heard anything further. Whitmer pointed out he was concerned since the Press-Record repeatedly "has put heat on the council to take action. We can go to the retailers and ask them what they want."

Council members voted for the mayor to arrange the meeting, and Mayor Partney was asked to arrange the meeting. Whitmer's motion for the meeting was seconded by Fry.

Pertaining to the business district, Basarich said he had conferred with Illinois Power Co. officials, and a recommendation was made for two 20,000 lumen lights to be placed on the new metered municipal parking lot in the 1800 block of Edison

avenue directly behind Stephans and Hub Drug store. He recommended a resolution be prepared to authorize the resolution which would cost the city \$14 a month. "No one would want to pay to park on the lot at night now," he added. In other business, the council referred to City Atty. Allen a letter from John Campbell of Mercer drive, who said he plans to plug a city drainage line across his property. He pointed out the city has no easement.

Council members noted the line was installed by the developer of the subdivision and asked City Atty. Allen to look into the matter.

Parked Car Damaged
A parked car owned by Paul Thomas, Fairmont City, was damaged Tuesday by a hit and run car. Police reported the Thomas auto was parked in the 400 block of State street when the accident occurred, but the time of mishap had not been determined.

WHAT'S THIS?—The signal light says stop—the other sign says "no stopping or standing" on Nameoki road at East 25th street. The signs are just inches apart, but as confusing as it is—the red signal light prevails—according to the rules of the road.

Barbara Sabin Among SIU Prexy Scholars

Southern Illinois University's undergraduate Brain Trust—the President's Scholars program—has 438 members going into the close of the fall quarter. Among them is Barbara Sabin of 12 Mercer drive.

President's Scholars, among the highest ranked students at the Carbondale campus, are nominated on the basis of entrance test scores and predicted grade point averages at SIU. Students may maintain a minimum 4.0 average (on SIU's 5.0 grade scale) to stay in the program.

Started last year as a distinctive honors experience for gifted and promising students, the President's Scholars program now includes 227 freshmen and 231 continuing members of the original membership.

Scholars have special library privileges, honors sections of various courses, special seminars, early advisement privileges and other prerequisites. The program has its own meeting and administrative center and is directed by Bruce MacLachlan, an assistant professor of anthropology.

City to Review Year's Finances

Members of the Granite City council's two Finance committees are to meet next Monday evening with City Treasurer E. R. Rich and Comptroller Robert Stevens to review the city's financial structure for the remainder of the fiscal year.

Alderman Rutledge, long-time Finance committee chairman, said during this week's council session that the budget and expenditure report for six months shows there are deficits within various departments and that a procedure for fund transfers should be instituted.

He added that Treasurer Rich has stated he will not write checks for any fund that shows a red figure.

"We also should try to determine our future sales tax income. I've heard reports it might be down as much as 30% because of a drop in business due to strikes," Rutledge said.

The council adopted a resolution transferring \$4500 from sales tax to the special improvements section of the budget to pay for engineering services for street and sidewalk projects. The council did not include any funds for engineering in the present budget.

GC Police Vacancy Exam Set for Dec. 21

An examination to fill a vacancy on the Granite City police department is being arranged for Dec. 21, with the minimum age for applicants to be lowered to 21 years, it was announced today by Eugene R. Burnett, secretary of the board of Fire and Police Commissioners.

To qualify, an applicant must be between 21 and 35 years of age and a resident of Granite City for the past three years. Written and physical examinations will be given. In previous years the minimum age was 25.

Application forms are available at the office of the police chief in the city hall. The vacancy was created by the Dec. 3 resignation of Patrolman Alan LeMaster, who went to work for a local industry.

Just in Time for Yuletide

Santa on Receiving End—Given Present of New Suit

What would Christmas be like without Santa Claus? A pretty dreary prospect for any child and, if he can help it, Clifford Barr of Madison has no intention of allowing young-

sters to face such an unpleasantly. This Yuletide, especially, Santa Claus' Madison representative is not about to change a tradition which started for him

nine years ago, as the volunteer Santa will make his holiday appearance in a new red velvet suit, a surprise gift from his admirers.

The plush, bright-red outfit was presented to Barr last evening at his home, 1434 Sixth street, Madison, by a group of well-wishers who have benefited from a generosity of spirit and warmth that each year accompanies a visit from the Madison Santa.

A daughter, Mrs. Joseph Stephanoff, who resides at Box 709, Meadow Lane Subdivision, near Mitchell, commented yesterday. "We can't wait to see the look on Dad's face when he gets the suit."

Never Asks for Anything "He is the type of man who never asks for anything... but has mentioned he should get a decent Santa Claus suit, as the outfit he wears each Christmas cost him \$7.00 nearly a decade ago and is no longer in good condition."

Barr began his Santa Claus masquerade for his grandchildren Christmasmas ago. Neighbors in the area where Mr. and Mrs. Stephanoff reside heard of Barr's Christmas Eve visits and asked him to call at their homes.

Soon, the retired school custodian found himself visiting Cub Packs, Girl Scout and Brownie troops and pupils at Harris school, Madison, and Blair elementary school in North Venice, listening to the children's Christmas wishes and inquiring about their behavior.

"I believe it is as big a thrill for Dad as for the youngsters. He won't take anything for making the appearances at homes, schools or other youth groups, so my neighbors in Mitchell, spearheaded by Mrs. Stanley Weiss of the Meadowlane Subdivision, purchased the red velvet material and made it into a handsome new Santa outfit," Mrs. Stephanoff said.

Retired Custodian Barr, 66, retired as custodian of Harris school, Madison, in July, 1967, after 16 years service. Previously he worked 23 years at the former Barber Asphalt Co. plant in Venice. He

is a lifelong resident of the North Venice and Madison area. Also viewing the presentation ceremony last night were Barr's wife, Margaret, and another daughter, Mrs. Gene Ross of Granite City, whose children are now grown, and the three Stephanoff grandchildren, Jeannine, 4½, Rhonda, 10, and Clifford, 8 years, who are looking forward to seeing Santa in his brand-new outfit this Christmas Eve.

Speeding Charge Filed Lorraine A. Kiberski, 3402 Village lane, was ticketed on a speeding charge at 2:55 p.m. Tuesday at 15th street and Madison avenue.

DINNER FOR LEADERS

A Christmas party and pot luck dinner was held at St. John's Lutheran Church Monday evening for Girl Scout leaders of Neighborhood Four. Hostesses were members of the Neighborhood service team. Table decorations were in red, green and gold with a holiday theme.

Traveling buncos was the game at a social hour, and prizes were won by Mrs. Diane Hesel, Mrs. Dorothy Brokaw and Pat Emring.

The leaders were reminded of a Cadette roundtable at the home of Mrs. Billie Schuler, 2227 Newell drive. They are to bring a sack lunch.

An overnight outdoor skill session will be held at Camp Lakota Jan. 10-11. Reservations and money are to be turned in to Miss Carolyn Votaw by Dec. 28.

In attendance were the chairman, Mrs. Wanda McDonough, and Mesdames Maude Bates, Beverly Benoit, Mary Jane Bess, Pat Johnson, Shirley Long, Dorothy Luckert, Betty Osburn, Rosemary Patton, Joanne Riddle, Anna Scanlon, Denise Schmitz, Billie Schuler, Joyce Stinson and Doris Votaw, district chairman.

The next meeting will be Jan. 6 at the church. Guest speaker will be Mrs. Arlene Brinkmeyer.

LEADERS' YULE PARTY

Several members of the neighborhood service team of Neighborhood Three met at the home of Mrs. Doris Stotz, 2571 Hodges Avenue, this week to make final arrangements for a leaders' Yule party at Camp Lakota tonight at 6:30. Gifts will be exchanged. Meat will be furnished, and each leader is to bring a covered dish.

The leaders made party favors and Mrs. Mary Lockhart, chairman, announced that the National Girl Scout Council has purchased 15,000 acres at Big Horn near Ten Sleep, Okla., for a National Center West. She asked consultants to remind girls interested in training to contact the River Bluffs council office.

Mrs. Vivian Davis, general chairman of the festival of giving, which will be held Sunday from 1:30 to 3 p.m. at St. John's United Church of Christ, gave a report on preparations for the event.

A noon luncheon was served by Mrs. Stotz to those mentioned and Mrs. Mary Fryntko, Mrs. JoAnn Jarrett, Mrs. Mae Lee, Mrs. Gin Marlette and a guest, Mrs. Jackie Watkins.

FOUR SCOUTS INVESTED

Junior Girl Scout Troop 704 of Webster PTA assembled for a weekly meeting at the school Monday afternoon with the leaders, Mrs. Mae Lee and Mrs. Shirley Tervail, and practiced a flag ceremony for the Dec. 16 PTA meeting. The scouts repeated the pledge of allegiance and promise and sang "America."

Four new members, Lisa England, Patti Jones, Cindy North and Karen Tolen, were invested and welcomed into the troop. The girls rehearsed a play and songs for the "festival of giving" Sunday afternoon. Teresa Rushing will be narrator. Canned goods were turned in for a basket distribution by Protestant Welfare.

Five tree ornaments will be placed on a festival Christmas tree by Carole Griffin, Patti Jones, Anita McGee, Alexis Hoxian and Tammy DePew.

The troop will entertain at a day nursery Dec. 9 with a Christmas party. The girls will take toys for the children, sing and provide refreshments. Mrs. Lee gave out permission slips for this trip and a campout at Camp Keck Dec. 14-15.

THE DAVENPORTS are on an extended vacation traveling around the world and have visited New Delhi, Bangkok and flew over South Vietnam en route to Hong Kong and Tokyo. They enjoyed a week's visit in Hawaii before arriving in California and toured several states on the drive here.

They plan to remain here for the Christmas holidays visiting numerous friends and local relatives and will go on to Amsterdam, London and Istanbul prior to returning to Arabia where Davenport is employed as the area fire chief of protection for the Arabian American Oil Co., one of the largest refineries and terminal facilities in the world. Davenport is a former employee of the Dow Chemical Co. Mrs. Davenport is the daughter of Mr. and Mrs. Oscar Busher, Troy, Ill., the children attended the Wilson school while residing here with their family about 3½ years ago.

Davenport commented briefly on the living conditions, the mode of dress and the religious aspects of Saudi compared to the U. S. "Although Arabia is a beautiful and scenic country, tourists are not encouraged," he said. There are no hotels nor housing areas to accommodate the travelers and the lovely beaches are virtually deserted.

CUB SCOUT AWARDS
Cub Scouts of Pack 122 sponsored by the Wilson PTA met at the school Monday for a monthly meeting with Cubmaster Joseph Moutria and Bobcat awards were presented to Ricky Curtis, Victor Griffin, Vincent Martinez and Christopher Walters.

The opening flag ceremony was conducted by the Webelos, and the scouts repeated in unison the pledge of allegiance. Several boys, Allen Briner, Jim

Barrs, Donald Grimes, Bill Kinkel, Steve Koffal, Ricky Knight, Greg Moutria, David Stinson, Louis Trogovich and Billy Webb, were advanced into the Webelos. The newly-formed Webelos met weekly at the school on Wednesday evening at 6 p.m. with the leader, Bill Bellings.

Den One under the directions of Mrs. Kate Walters, den mother, displayed musical instruments that each boy had constructed from coffee cans, pie pans and scraps of wood. They entertained the pack members with a pantomime of a recording using their crafted instruments.

Following the retiring of the Webelos, the boys were served by the host den members. A Christmas party will be held for the Pack later this month and each boy will bring a canned good item or staple to fill a basket for the needy. Santa Claus will provide a special treat for each boy.

New Trade Exhibit

Illinois, the nation's leading exporter, premiered a new exhibit at the National Foreign Trade Convention in New York City. The convention annually attracts businessmen from throughout the nation.

The state's new exhibit highlights the advantages of using Illinois ports for overseas trade and describes the various other facilities available throughout the state for exporting.

Theme of the meeting was "Realism in World Trade and Investment—An Essential for Economic Progress."

Museum Attendance Grows

"Attendance at the Illinois State Museum continues to grow," according to Milton D. Thompson, museum director.

The October attendance for this year topped that of October 1967 by almost 4000. Saturday, Oct. 26, saw 1941 visitors enter the museum. Total attendance during October was 24,797.

The highest attendance recorded any day is 4938 on May 17, 1968. In May of this year, 70,141 visitors established the attendance record for any one month since the museum has been opened.

New permanent exhibits are constantly being added and exhibits in the Art Galleries are changed frequently.

White Tails Abundant

The Illinois white-tailed deer population is as high or higher than it was in 1967, according to biologists of the Illinois Department of Conservation.

Hard frosts in many parts of the state have killed annual undergrowth and most trees in the timberlands are bare. A fall much drier than the fall of 1967 has facilitated the corn harvest.

All conditions indicate that the deer harvest this year should be larger than in 1967. Second portion of the deer season is December 6, 7, and 8.

Three Tavern Owners Reprimanded by Sheriff

County liquor licenses become due the first of the year, and Sheriff Musso said their licenses may be revoked then. No further action in the case was taken as Harold Landolt, commission chairman, and James Chapman, secretary were out-of-town.

Mrs. Betty Diddell, president of the Kirkpatrick Homes Improvement Association, sponsors of the festival, said today that members have cooperated together and worked hard in an effort to make the event a success.

"Many items to be offered for sale will make excellent Christmas gifts," Mrs. Diddell said, explaining that proceeds from the bazaar will be used to provide Yuletide treats and a Christmas party for youngsters living in the housing project.

Place-mats, dresser-scarves, dish towels, decorative candles, pillowcases and curler-bags will be among the items offered for sale, the association official said. She noted that the children's Yule party is scheduled for 7:30 p.m. Thursday, Dec. 19, in the recreation center.

Arrest Armed Man In Stolen Car; Faces 3 Charges

Donald L. Hommert, 34, of 4108 Melrose avenue, was arrested at gun point at 13th street and Madison avenue Tuesday night in a car that had been reported stolen in Granite City.

Police said Hommert was armed with a .25 caliber automatic containing eight live shells. Madison police filed three charges against him.

Hommert then was turned over to Granite City police who questioned him late yesterday afternoon and filed theft charges against him. Hommert's bond was set at \$1000 on the Granite City charge pending a hearing tomorrow.

Hommert was transferred to the county jail at Edwardsville. Patrolman Edward Goclan reported that while patrolling on Madison avenue he spotted the 1968 model auto with Illinois dealer plates which he recognized as one reported stolen. Goclan said he radioed Granite City police to send a car to the scene, and while he was waiting in the alley between Grand and Madison avenues, he saw a man walk to the car.

Goclan reported the man walked to the front of the car, removed the front license plate and laid it on the sidewalk. The man then got into the car and started to pull away. As he did so, Goclan blocked the auto with the police car and ordered the man out of the car at gunpoint. He said he found the gun in Hommert's right rear pocket. Hommert was charged at Madison with unlawful use of a weapon, failure to possess a state gun registration card,

GM&O RR's "GRAND CENTRAL STATION" at 20th street that was ridiculed at Monday night's Granite City council session.

and failure to possess a driver's license.

Granite City police said Hommert obtained the automobile about 3:30 p.m. Tuesday at Woodrome Oldsmobile, Inc., 1905 Madison avenue, when he appeared as a prospective customer and asked to drive a demonstrator model. Police said he failed to return with the car.

Charred Wallet, Cards of Missing Venice Man Found

Charred debris found in a field at Venice yesterday and identified in part as personal effects of O. C. Ward, 1229 Logan street, who has been missing since Nov. 30, was under examination today by the Illinois Bureau of Criminal Identification.

Venice police said the articles were found after they received an anonymous telephone call from a woman who said the site of a small fire in a field about 100 feet east of Line Alley at Calhoun street would prove interesting to officers.

Authorities said they found the burned remains of a wallet containing cards bearing Ward's name, several scraps of paper and several loose identification cards. Police said there also were some charred remains of clothing, but none of it could be identified as belonging to Ward.

Ward was reported missing last Sunday by his wife, Mrs. Priscilla Ward, who told police she had not seen her husband since 5:30 p.m. last Saturday when he left home to go to a neighborhood liquor store. Officers later determined that Ward cashed a \$131 check at the liquor store and purchased a bottle of liquor.

His car was found abandoned on Bend road just off Route 203 Sunday morning after a deputy sheriff reported he had seen the car at that location as early as 8 p.m. Saturday. Less than an hour later, after Ward left home, police said Ward is about 67 years old.

Griffith, a Republican, defeated Leon Scroggins following a campaign in which Griffith pledged vigorous investigation and prosecution of felony crimes.

Kachigian, 35, was named to the juvenile and family division of the state's attorney's office. Marshall Smith, 47, East Alton attorney, was appointed to head the civil division and Robert E. Trone, 37, Edwardsville, was named chief of the criminal division, assisted by Erneston Bass of Alton and John Dale Stobbs of Godfrey. Trone served four years as a county public defender.

Office consultant will be W. Henry Owens of Wood River. Lt. Gov.-elect Paul Simon of Troy attended the brief inauguration ceremony and congratulated each man upon his new term in office.

Mrs. Rita Donati, 41, Dies; Former Resident

Funeral services were held yesterday at St. Louis Hospital, where she had undergone emergency gall-bladder surgery five days earlier. She had not previously been ill, and was employed in the office of Laclede Steel Co., St. Louis.

A resident of the Quad-Cities during the 1940s, Mrs. Donati had moved with her family from Belleville to Collinsville about a year ago. She was a native of East St. Louis.

Surviving are her husband, Larry Donati; two daughters, Mrs. Laura Oliver and Mrs. Paula Brewer; and a son, Jerry Christopher, all of Collinsville; her mother, Mrs. Maude (Riley) Dodson, a teacher in the Godfrey school system, formerly of Granite City; three sisters, Mrs. Norma Sedlack of Edwardsville, Mrs. Rose Wise of Collinsville and Mrs. Jean Lauer of Troy; a stepbrother, Raymond of Edwardsville; and two grandchildren. Two aunts, Mrs. Opal Fogle and Mrs. Ella, both of Madison, also survive.

Thweatt Named In Pistol-Whipping Of Bobby Wallace

Bobby Wallace, 35, of 4037 Braden avenue, was pistol-whipped and kicked while sitting in a car Tuesday morning at the Carpenter's district hall, 901 West Chain of Rocks road, and Madison county authorities were searching for Terry Thweatt of Chouteau Slough road as his attacker.

Thweatt was to appear with his attorney today at the sheriff's office in Edwardsville. The assault took place before 20 to 30 men at the hall, and authorities obtained a warrant charging Thweatt with aggravated battery.

After the county sheriff's office was notified at 9 a.m., deputy Raymond Williams interviewed Wallace at the Granite City police station where the victim was first taken. Wallace related that he was playing pool with three other men when Thweatt entered and twice said, "You're the one I want to see."

After the second statement, Wallace said Thweatt pulled a gun, believed to be a .38-caliber blue steel revolver, and struck him on the head twice. When he fell to the floor, Wallace said Thweatt kicked him in the back, and with his gun cocked and aimed at him, Thweatt threatened to kill him.

Wallace was taken by police to St. Elizabeth Hospital where he was treated for lacerations to the forehead and scalp requiring six sutures and abrasions and contusions of the back. X-rays were taken of Thweatt's head and spine and he was released. No motive was listed for the attack, but Wallace is an older brother of Shelby Wallace, 31, who was acquitted by a jury of a murder charge in the fatal shooting of Thweatt's son, Terry Thweatt Jr., then 17, on Oct. 1, 1967, outside a tavern on Highway 111.

Plan to Haul Waste by Rail Outlined

A proposal to dispose of the area's growing mountain of waste by use of railroad facilities was outlined Tuesday at Collinsville in a meeting of representatives of Madison, St. Clair and Monroe counties, arranged by the Southwest Illinois Metropolitan Area Planning Commission.

The plan to haul solid wastes that cannot be disposed of in incinerators was outlined by Sheldon Landy, manager of marketing services of the Illinois Central railroad who told the group that long-distance hauling of waste materials to land areas well outside populated districts is expected to gain in popularity.

SIMAPC is now nearing completion of a three-county study of waste disposal methods with Homer & Shiffrin of St. Louis, as consulting engineers. The study is expected to be completed next March and will discuss cost and feasibility of the various types of waste disposal such as incinerators, landfills, composting of garbage, transfer stations and truck hauling.

Talks Still On In GSI Dispute

Contract talks in an effort to settle a strike of 1300 steelworkers at General Steel Industries resumed in U. S. Mediation Service offices in St. Louis today after a two-day recess amid reports that considerable progress toward agreement has been made in sessions held almost daily since Nov. 25.

A negotiation session in the strike of 790 steelworkers at the Madison plant of Dow Chemical Co. broke up yesterday afternoon, however, with representatives of both sides still in deadlock over seniority provisions and job security contract language, original cause of the strike that began Aug. 31. The Dow plant strike went into its 97th day today.

Union Leaders and General Steel officials met Monday for nearly eight hours, then recessed until today to discuss issues said to involve fringe benefits and particularly insurance provisions of the contract. The GSI strike of members of United Steelworkers of America Local 1022 has idled an additional 700 workers. The plant has been shut down since the strike began Nov. 1.

Both sides agreed to further meetings in the Dow contract dispute when yesterday's session ended, but not specific date had been set today.

Accident Victim Faces Gun, Traffic Charges

Dennis L. Kelly, 21, of 2908(r) Buxton avenue, was charged with having no firearm owners identification, careless driving and having no driver's license at 8:40 a.m. Wednesday. He pleaded guilty to the unlicensed driving charge and was fined \$20 plus \$5 costs but pleaded not guilty to the other charges. He was arrested upon his release from St. Elizabeth Hospital where he was admitted following a traffic accident last Friday at 13th street and Edwardsville road. He had a shotgun in his auto, police said.

William Barton, St. Louis, reported at 10 p.m. Wednesday that a rear wheel from his 1965 auto was stolen while the car was parked on a church lot at West 25th street and Dewey avenue. The wheel was valued at \$36.

Madison Police Hold Man in Car Theft Probe

James "Buddy" Davis, 22, of St. Louis, was held by Madison police today pending investigation into two car thefts and entry of a third last night and early this morning.

Davis was arrested, police reported, when he was found in a parked auto owned by Francis R. Helm of Troy, an employee at the Illinois Central railroad yards who told officers that when he went to get into his car he found Davis locked inside the auto. Police said the ignition of the car had been tampered with.

Prior to Davis' arrest, Madison police received a call at 11:10 p.m. from the trainmaster's office of the CH&W railroad that a 1968 four-door model auto was sitting on a railroad flat car at the Piggy-Back ramp under the McCambridge avenue viaduct.

Subsequent investigation revealed the car was owned by Mrs. Vickie Riskovsky, 225 Garesche Homes. Police contacted the woman who, until that time, did not know the car had been stolen from its parking place at her apartment. Police said the unit section and steering mechanism of the car was damaged, apparently when it was driven onto the flat car.

At 2:25 a.m. today, two hours after Davis had been booked, patrolmen located a 1964 two-door auto abandoned in a no-parking area at Second street and McCambridge avenue. That car was identified as one stolen yesterday in St. Louis from Wesley Miller. Police reported that at the time Davis was booked, they found on him a brief piece of coat hanger with a hook on the end and a section of an ignition lock. The ignition lock was missing from Miller's car when it was found, officers said. Davis was charged with criminal trespass of a motor vehicle pending further investigation of the case.

Furnace Start Ups May Bring Emissions

Granite City's Air Pollution Control Board has been advised by Granite City Steel Co. that with the fire-up of the blast furnace and the basic oxygen furnaces the firm anticipates visible emissions from its stacks.

Lyle F. Gulley, president of the steel firm, said the start-ups are under way and are to be accomplished within the next 10 days.

Henry Bieniecki, chairman of the city board, said the firm would be given full cooperation during the start-up of furnaces following a lengthy strike. The board is to meet at 7:30 p.m. next Monday at the city hall.

Six Drivers Arrested, Police Use Radar Unit

Six drivers were ticketed on speeding charges Wednesday as radar division police operated a radar unit at Benton street and Indiana avenue. Those issued tickets were:

Regina D. Delavoy, 600 Twenty-fifth street; Frances H. Steiman, 2945 Peeling road; Robert M. Prince, 2153 Edison avenue; Mary Lee Svezia, 1709 Fifth street; Boris C. Gitcho, 3304 Nameoki road; and Stanley F. Amberger, 2556 Benton street.

time Davis was booked, they found on him a brief piece of coat hanger with a hook on the end and a section of an ignition lock. The ignition lock was missing from Miller's car when it was found, officers said. Davis was charged with criminal trespass of a motor vehicle pending further investigation of the case.

GC Council Goes Off On Tangent--Then Oks Payroll

City employees of Granite City almost had to go whistling for paychecks for the first half of this month as a misunderstanding arose on the council Monday night over approval of the payroll, and it failed to gain sufficient votes for approval.

While it took several other roll calls votes to correct the situation, the \$48,796 half-month payroll finally was approved, but only after Alderman Rutledge commented it would be a "slim Christmas" for city employees.

The payroll lists 194 persons, including city officials and the aldermen themselves.

The payroll was presented in customary fashion by Rutledge, and as has been a custom for the past several months, Alderman Moerlien called for a separation of the salaries of the city treatment plant employees, indicating he did not want them paid.

Moerlien's Contention
Moerlien is contending the city council acted in an illegal manner in granting double pay increases to the treatment plant employees last summer. The first step was to equalize their pay with the street department scales, and then the workers were given the blanket increase approved for all city workers.

Moerlien is pointing out the

budget for the treatment plant, which is financed through a revenue bond issue, does not allow sufficient funds to meet the payroll.

Each time there is a city payroll, Moerlien calls for the separation, and then the council votes separately to approve the treatment plant employee salaries.

However, Monday night the vote turned out 8-to-6 on the city payroll "as separated."

Voting for the separated payroll on the initial go-round were, Dallas, Moerlien, Bartosiak, Whitmer, Rutledge, Jarrett, Daves and Johnson. Opposed were Boyd, Green, Basarich,

Fry, Parmley and Robertson. Absent were Poulos and Nomm.

Seramble to Change Votes
When Clerk Pendleton announced the motion for approval was lost, several aldermen called upon the mayor to vote. Partney decided to vote "no," and it was then that Parmley called out he wanted to change his vote to "aye," saying he had thought the motion was to vote on the separation. Boyd, who had led off the "no" voting, also called for a vote change, and it was decided to resubmit the motion for payroll approval.

Moerlien called a point of order, saying the council first

would have to vote on reconsideration of its action.

That motion was approved, and then the council proceeded to vote approval of the "payroll as separated." Fry voted "no."

Another motion then was made for approval of the salaries for the treatment plant employees. There were "no" votes by Moerlien and Johnson.

Council members also voted approval for sick leave payments totaling \$1607 for the last half of November and agreed to transfer money from the parking meter account to pay two clerks in the police department for the remainder of the current fiscal year.

Commendation Medal For USMC S/Sgt. McLean

S/Sgt. Charles M. McLean, U. S. Marine Corps, son of Mr. and Mrs. Eugene McLean, 2608 Center street, was presented with the Navy Commendation Medal with Combat "V" for meritorious service while serving with the 1st Marine Air Wing in Vietnam.

The presentation was made by Lt. Col. Dallas R. Walker, commanding officer, 1st Recruit Training Battalion, during recent parade and review ceremonies at the Marine Corps Recruit Depot in San Diego.

The citation which accompanied the award read, "For meritorious service while serving with the Maintenance Control Section, Marine Fighter Attack Squadron 122, Marine Aircraft Group Eleven, First Marine Aircraft Wing in connection with operations against insurgent communist (Viet Cong) forces in the Republic of Vietnam from Aug. 10, 1967 to Sept. 1, 1968.

During this period S/Sgt. McLean performed his demanding duties with exemplary skill and resourcefulness. Arriving in the Republic of Vietnam as a member of his squadron's advance party, he worked tirelessly in establishing efficient maintenance facilities which enabled the unit to commence flight operations immediately upon arriving in DaNang.

"Demonstrating an extensive knowledge of the F-4 Phantom aircraft, he assisted technicians in related fields in locating and correcting aircraft malfunctions on numerous occasions. "Diligently studying the Maintenance Material Management System, he trained his men in the proper utilization of the new system, which resulted in the efficient documentation of aircraft maintenance transactions.

Traffic Deaths in '68 Up 45% Over Same '67 Period

Deaths from injuries in traffic accidents during the 11 months of this year in the Quad-City area have increased 45% over fatalities of the same period a year ago while the accident rate

has increased by 11%, over 1967 totals, a study of traffic accident statistics showed today.

Three fatalities in traffic accidents during November increased to 33 the total number of deaths during 1968 thus far, compared to 23 for the 11 months of 1967. The three traffic deaths last month was the same number as occurred in November a year ago.

A total of 227 accidents involving 139 injury cases was reported for November, compared to 175 accidents with 98 injuries in the same month of the previous year, bringing to 2112 the total number of accidents so far this year with 1251 injuries. Last year the 11-month total showed 1904 accidents with 1255 injuries.

November's accident and injury ratio was well above that of the previous month of October when 162 mishaps were reported throughout the area. Only 64 persons were injured in the October crashes and two persons died in traffic mishaps.

Highest Rate in January
The total of 227 accidents in November was exceeded only by January when 253 mishaps were recorded throughout the area, involving 131 injuries and one fatality. November's total of three fatalities was exceeded last June when nine deaths resulted from area accidents, the largest number of persons killed in traffic crashes in a single month for many years.

Five persons died in traffic accidents in March this year, and three each in February, April and November.

Traffic statistics for the 11 months of the year include: January, 253 accidents, 131 injuries and one fatality; February, 169, 98 and 3; March, 176-81-5; April, 155-106-3; May, 217-126-2; June, 202-142-9; July, 162-94-2; August, 194-143-2; September, 195-127-1; October, 162-64-2, and November, 227-139-3.

JCs Seek Nominations For DSA-OYE Honors

Nominations of candidates for the Granite City Jaycees' 1968 Distinguished Service Award and Outstanding Young Educator Award are currently being accepted. It was announced today by James Jeffries, Jaycees project chairman.

The awards, conferred annually on exceptional young persons in the community, will be presented at the Jaycees' DSA-OYE and "Bosses' Night" banquet Saturday, Jan. 26, at the Rose Bowl restaurant.

Announcement of the winners will highlight "Jaycees Week," which will be observed Jan. 26-28. Also to be presented at the ninth annual banquet is a special award honoring the "Jaycees Boss of the Year."

To be eligible for the DSA honor, candidates must be young men between the ages of 21 and 35 years. Qualifications of participants will be judged by a special committee of local citizens.

The DSA is the highest award the local Jaycees present. The successful candidate is then entered in the U. S. Jaycees' Ten Outstanding Young Men contest in which achievements may be further recognized and honored.

Names or nominees may be submitted by individuals or organizations for the DSA or Outstanding Young Educator awards, Jeffries said. He pointed out that names of young women educators may be entered in the latter contest.

Nominations for both contests may be made by submitting the candidate's name and address to James Jeffries, Granite City Jaycees, P. O. Box 5, Granite City. The Jaycees will then contact the nominee to complete a special application and background resume.

All nominations must be postmarked no later than midnight, Sunday, Jan. 5. In awarding the DSA honor, six areas of service and performance are closely scrutinized by the judging panel.

Selection is based on such achievements as: Contribution to community welfare during the past year; participation in all-around community activities; evidence of lasting contribution to community activities; exhibition of leadership ability; evidence of personal or business progress; and cooperation with individuals and civic organizations.

Vietnam Vet Suggests Placing Old Civil War Cannon in Civic Park

"The Granite City air smells like perfume and I couldn't ask for anything more. Although I do have a suggestion from some of the fellows in my outfit back in Qui Nhon," a local Vietnam veteran commented last week.

The remarks were made by ex-Specialist Five Charles R. "Bob" Simon, husband of the former Judith Ann Hall, and son of Mr. and Mrs. Paul A. Simon, 4047 Stearns avenue, who recently received his Army discharge after returning home from ten months duty in Vietnam.

While serving overseas, Simon was a member of the 593rd General Support Group, an outfit formerly based at the Granite City Army Depot which named its compound area at Qui Nhon—Camp Granite—in honor of the local community.

That Cannon Assistance in the restoration process was provided by members of Sarah Jane McEvers Tent, 90, Daughters of Union by the 593rd when the outfit left here in November 1966.

The ancient artillery piece which Simon reports in fineable condition left Camp Granite in a steel container June 1, after the 593rd was requested to return it. The cannon now sits

at the local military installation. "We didn't mind sending the cannon back here," the former serviceman said, "but most of us believe it should be located in a public place, somewhere accessible to everyone. Possibly in the park where the old post office used to stand on Niedringhaus avenue (Civic Park)," the returnee suggested.

"Unless you happen to visit the Depot, local residents cannot see it and most of the 593rd men think it should be displayed in a public area," Simon added.

Ordnance records indicate the cannon was fired during the Civil War. The weapon was reconstructed and restored into workable condition by soldiers of the 593rd General Support Group while stationed at the Depot.

Additionally, the DUV group furnished the 593rd in Vietnam an Illinois State flag, obtained from former Gov. Otto Kerner, which is prominently displayed in the headquarters building at Camp Granite.

CIVIL WAR CANNON, recently returned to the Granite City Army Depot from Vietnam, where it was taken by the 593rd General Support Group two years ago, shown outside the 593rd's command post at Camp Granite, Qui Nhon, with Lt. Col. A. L. Morgan, unit commanding officer (left), and Specialist Five Charles R. "Bob" Simon of Granite City.

During the cannon's Vietnam tour of duty, it attracted soldiers from many other outfits to Camp Granite, who posed beside the historical artillery piece for photographs to send their folks back home, Simon reported.

Although based at Camp Granite, sub-area command headquarters, the local man traveled extensively through the Central Vietnamese coastal region. Qui Nhon, a coastal city, is located almost midway from DaNang to the north and Camp Ray Bay in the south.

2000 Miles a Month: The ex-GI logged more than 2000 miles each month, traveling between units of Korean, Vietnamese and U. S. Forces as part of a U. S. Army Engineer Construction Agency-Vietnam liaison team. The USAEC-CAV team monitored and acted as a liaison unit between the military and civilian contractors at construction sites and areas of proposed construction.

Simon's regular itinerary included calls at Phu Tai, Bang My, An Khe, Binh Khe, Bapi, Phu Cat and Chanh Dangi, among others.

He noted that one week before leaving Qui Nhon, a typhoon swept through the area and added, "One has never seen it rain until lashed by such rain-storm frequently encountered during the monsoon season in Vietnam."

The ground fighting still continues regardless of the rain, but large scale activities slow down considerably during the monsoon period. The foot soldiers have the worst time of it, as usual," Simon commented.

Described Camp Granite as surrounded by high wooded hills, and crevasses, gorged out of the mountainside, provide perfect chutes for torrents of water to inundate the camp with each heavy rainstorm. "We frequently had two-feet of water standing on the floors of the wooden barracks and supply buildings in camp," he added.

Just before returning home, Simon was awarded the Army Commendation Medal for meritorious service. The citation, accompanying the medal reads in part:

"During the period January to Oct. 27, 1968, Specialist Five Charles R. Simon distinguished himself through exceptionally meritorious service while serving as an administrative clerk and production control clerk of the Command Engineer Section, Qui Nhon Support Command, and subsequently as a construction supervisor with the Phu Tai Installation Engineer Office."

"While with the Command Engineer Section, Specialist Five Simon performed his administrative function in a pleasant, positive, helpful and efficient manner. He sought the reason behind action in his area of responsibility in order to perform and obtain better results. His work was always timely and without error... he offered valuable suggestions gratuitously, and invariably offered sound advice and proper direction to customers... expediting order requests from three different R & U installations, serving upwards to 50 major customers."

Use Safety Measures on Christmas Decorations

Quad-City area fire chiefs are advising local residents to take adequate safety precautions with Christmas trees and decorations during the current season.

They have offered recommendations which are applicable in homes, offices, schools and other areas of the general public, they are:

Use only Christmas trees that have been treated for flame resistance.

Christmas trees and other flammable decorations

as wreaths may be treated with a solution of six parts (by weight) borax, five parts boric acid and 100 parts of water. The solution should be sprayed heavily on the decoration and repeated after 24 hours at least once.

Natural trees should be placed in stands that provide a place at the bottom for water. A diagonal cut should be made at the base of the tree and water kept to a depth provided in the stand.

Decorations should not be

placed in corridors or other areas where they may block exits.

Use only approved lights, not candles, on natural trees.

The chiefs also advised that carbon dioxide or chemical

powder fire extinguishers should be in the immediate area of the natural decorations.

Scout Council Serving 4000 Boys Aged 8-18

The Cahokia Mound Council, Boy Scouts of America, which presently has about 160 units, will serve over 4000 cub scouts, boy scouts and explorers, will receive \$49,500 as its 1968 allocation from the current United Fund campaign, approximately half of its total operating budget.

In the Quad-Cities, the 1968 year is ending with 2175 boys in 87 units, including 1140 cubs in 37 packs, 800 scouts in 34 troops and 235 explorers in 16 posts.

Boys who are interested in scouting begin their training and meetings at the age of seven years, or at seven if they are in the third grade.

They are classified as cub scouts and are placed in dens with ten mothers as their leaders for weekly sessions. The dens meet jointly as a pack each month, led by a cubmaster.

The next level of scouting for boys is in troops, with all-male leadership. The age range, 11-18. When boys reach the age of 14 or are in high school, they can join an explorer post.

Patriotism, Self-Reliance
The Boy Scouts of America is chartered by Congress "to promote, through organization and cooperation with other agencies, the ability of boys to do things for themselves and others, to train them in scoutcraft and to teach them patriotism, courage,

self-reliance and kindred virtues." The Cahokia Mound Council, working with local religious, educational, civic, labor, business and community groups who sponsor packs, troops and posts, provides program resources, camping facilities, training for adults and boy leaders, and many kinds of professional and volunteer assistance to make scouting available to all boys wishing to join. Between a fourth and a third of the available boys is enrolled.

The council maintains three camps for scouts. Camp Sunnen, with 370 acres of rolling land, is located near Potosi, Mo. This is the location of a mammoth summer camping program serving about 1000 boys yearly.

Camp Cahokia has 82 acres and is located outside the city limits of Litchfield, Ill., and Camp Graham has a total of five acres situated off Route 157 near Collinsville.

Scouting is regarded as "the strong right arm of parents, teachers, clergymen and other community leaders in training tomorrow's responsible citizens to be physically strong, mentally awake, and a moral straight."

Through the years boys have become better citizens and community leaders upon reaching adulthood, as a result of their scout training provided by many volunteer hours of interested parents and leaders, it is believed.

Service Projects, Activities
Council-wide and district activities include camporees, community service projects, meetings, badge exhibitions, on-the-job guidance, training seminars and coordination of unit programs. A large "scout fair" was presented here Oct. 11-12.

Hundreds of adults in the council, composed of Bond county and southern Madison county, serve as members-at-large, institutional representatives, committeemen, leaders and commissioners.

Carl E. Mathias serves as president of the council and Eugene Coe is the council executive. At present, the council office is located at 1338a Nieldringhaus avenue.

Keith Tobey is chairman, Edwin Menke executive and William Treln assistant executive of the Uniwash district, which consists of the Quad-Cities.

The council also includes the Illinois district, Collinsville and Edwardsville, and the Kickapoo district, which serves the Highland and Greenville regions.

Drivers Damaging City Property Will Have to Pay

Granite City council members voted support Monday night of a proposal by Alderman Whitmer for collection of damages from motorists who knock down stop signs, street signs, parking meters or electric traffic signals.

A list of the damages, compiled by the police department for the past year and listing damages totaling \$2885, was turned over to City Atty. Allen, who is to write to the individual motorists, advising them to pay the damages or be taken into the small claims court.

Whitmer noted a special target is the traffic signal setup at Namooki and Pontoon roads. "Another one was knocked down this past weekend," he added.

Allen had written to the council advising them a bill from R. Dron Electrical Co. for repair to one of the standards at the same location, damaged on Oct. 6, had been forwarded to the father of the youthful driver.

Repairs to damaged signal lights range from \$225 to \$325, while other claims, such as those for individual stop signs, will be about \$11.

Local Postmasters Give Tips On Yule Christmas Mailing

With the rush of Christmas mailing in its beginning stages, Postmasters Charles Simmons of Venice; William Clinton of Madison and Theodore Overbeck of Granite City are issuing several tips to facilitate the handling of packages and cards and to insure their delivery.

Greeting cards will require a six-cent stamp this year. They may be sealed and contain a written message.

The postmasters' hints are: "Don't forget to use ZIP codes on all your Christmas mail—in both the address and the return address—only you can put zip into your postal system."

"All gifts should be packed in sturdy boxes. Cardboard boxes should be wrapped in heavy paper and tied with strong cord."

"Don't let any gifts rattle around in your Christmas packages. Sufficient cushioning is important to give the box strength. There may be a set of encyclopedias shipped in a box on top of yours."

"Each package you mail should include a slip showing the person receiving your Christmas gift and listing the contents. In case the outer wrapping of a package comes loose, your gift will still be delivered."

"In addition to articles normally prohibited in the mails, matches and lighter fluid may not be mailed to overseas military addresses."

"Make sure your addresses are written or printed clearly and that they are complete. Don't let your mail end up in the Dead Letter office because your handwriting can't be read."

"Gift parcels to distant states should be mailed by early December, and those for local delivery by Dec. 16."

"Don't forget that under normal conditions there is no delivery of cards and letters on Christmas Day other than Special Delivery."

"Put ZIP in your Christmas mail, add zip codes to the addresses and return address."

"Remember to mark all mail for which you have paid special charges with the type of handling it should get (airmail, special delivery, special handling, etc.)."

"You can write 'Do Not Open Until Christmas' on the outside of a Christmas package and

goes through the mails. If a letter is enclosed it must be noted outside the package and first class postage should be paid for the letter, in addition to the parcel post rate.

"During the week just before Christmas long distance gifts and greetings should be sent by airmail to assure on-time delivery."

"You can help the post office by separating greeting cards into local and out-of-town bundles."

"Check the return addresses of the people who send you gifts and greeting cards and add their zip codes to your mailing list. Zip code your responses to them for better mail service."

"Using the new Christmas stamp should be wrapped in your greeting cards assures first-class service and decorates the envelope too."

Lack of Attendance May Close Teen Town Dances

YMCA Youth Director Charles Haase announced today that the lack of attendance at the weekly Saturday night dances may cause a shut-down of the dances.

"The dances have dropped off considerably in the last several months," he said.

"It appears that other clubs, groups, and organizations were impressed with the success of the 'Y' dances and decided to get in on the act.

"As a result, competition has become pretty great in Granite City. It's just too bad that everyone else must also hold their dances on Saturday nights."

The dances previously attracted more than 600 youths. Haase said that the "Y" Teen Town sponsors the dances as a service to the teenagers of the Granite City area. However, it is beginning to appear as though there is no longer a need by the teenagers for the "Y" dances, he added.

"The 'Y' youth staff is very

proud of the dance program that it has been providing for the teenagers," he said. "We feel that we have one of the best chaperoned dances in town. However, a non-profit organization cannot justify operating dances in the red."

Dances are currently scheduled through Jan. 4. The youth staff will be watching the attendances very closely in the next month, evaluating the program as time goes along. Should the attendances continue to be low, a decision probably will be made to discontinue the dances.

The schedule for the next five dances is as follows (all Saturday dances, 8:30 to 11:30 p.m.): Dec. 7, "Mosburg Shotgun"; Dec. 14, "The Rising Sons"; Dec. 21, "Mosburg Shotgun"; Dec. 28, "The Gary Hall Group"; and Jan. 4, "The Del Rays."

Nineteen-year-olds will be permitted to attend the Dec. 21 and Dec. 28 dances because of the Christmas holidays.

Art Group at SIU-SW Plans Holiday Auction

The Art Service club of SIU-SW will hold its annual Christmas auction Saturday from 7 to 10 p.m. in the lobby of the Communications Building.

Paintings, prints, ceramic pottery and works in other art media will be for sale. Part of the proceeds will be used to add to an endowment fund for achievement awards for art students.

With help from other substantial contributions, the club has provided two \$1000 endowments, mainly through proceeds from auctions, according to Michael Smith, a member of the Fine Arts Division and faculty advisor to the club.

The remainder of the proceeds will be used for financing an Art Service club field trip during the spring quarter recess, Smith said.

Ballet to Present Nutcracker Suite

A presentation of the Nutcracker Suite will be given on Sunday at 3 p.m. in the Communications building at Southern Illinois University - Southwestern campus.

Students of the Irene Gintatus School of Classical Ballet will participate and no admission will be charged.

As one of their first assignments, the code was discussed by council members at a meeting Monday evening. Suggestions have been studied for the past three weeks.

Proposals will be submitted to home rooms for consideration before recommendations will be submitted to the school administration.

Several of the students, concerned with the possible effects on their happy-type hair styles, conferred Monday with Reese Hoskins, assistant principal and a faculty advisor to the council. The other faculty sponsor is William Coop.

Man Released in One Crime Case Held in Another

Within 12 hours after his release Monday afternoon on his own recognizance in another criminal case, Calvin Hall, 24 of East St. Louis, was arrested again by Madison and Venice police on a theft charge.

Hall was picked up at 2 a.m. Tuesday while riding in a car with James Lee Archibald, 42, of Alton, who was being sought at the time by Alton police on a forged warrant, police said.

Hall was arrested several days ago by Madison police on a bench warrant from the sheriff's office charging Hall with deceptive practices in a case that originated in Edwardsville. Madison officers reported. He was arraigned in magistrate court Monday afternoon and then returned to Edwardsville where he was released on his own recognizance pending trial.

At 1:50 a.m. Tuesday, Madison police received a call from the French Quarters Tavern, 10th street and Grand avenue, that Ruby N. McCrea, 249 Madison avenue, had been robbed by a pursnatcher in front of the tavern.

Police were told that the robber had grabbed the woman's purse, jumped in an auto driven by another man and rode away. A few minutes later, Venice police received a call

Miss Stevens, Retired Teacher, Hurt in Fall

Miss Nellie Stevens, a retired school teacher, is a patient at St. Elizabeth Hospital, in room 112, being treated for an injured shoulder she received in a fall at her home.

Miss Stevens, is well known in this area as a teacher at McKinley school, having taught there many years. Since her retirement she has continued to serve as a substitute teacher.

from members of a picket line at Dow Chemical Co. who said a woman's purse had been thrown from a passing auto. The pickets' description of the car fitted the one in which the pursnatcher had fled.

Venice police stopped the car a short time later and its two occupants taken to Madison police headquarters where, police said, the McCrea woman identified Hall as the man who grabbed her purse. She also identified pieces of a make-up kit which were found in the rear seat of Archibald's auto, officers reported.

Both Hall and Archibald were charged with theft under \$150, but police said they expect to dismiss the charge against Archibald and release him to Alton authorities to face the forgery complaint.

A Vesper service will be held in the Sanctuary at 5 p.m., at which time a Christmas film will be presented and, after moments of devotion and wor-

ship, the Sanctuary Tree will be decorated. Each family will select one or two of the ornaments which have been made, and place them on the large Sanctuary Tree.

In the morning worship services at 8:30 and 10:40, Rev. R. Paul Sims will continue a series of Advent sermons under the theme of the meaning of Christmas. Ability to Pay, Benefits Received, 'Class' Tax, Redistribution Among Illinois State Income Tax Issues

(TAXPAYERS' FEDERATION OF ILLINOIS)

Prior to 1930, the adoption of a personal income tax by 17 states was prompted by a desire for an adjustment in the overall distribution of the tax burden.

This need for adjustment developed as a consequence of the rapidly changing economic development of the 1920s.

New sources of income were emerging which represented the taxpayers' capacity to pay, but which were not, or could not, be assessed effectively under the property tax. Therefore, the income tax came into existence to redistribute the tax burdens between property and non-property owners and to tap these sources.

In the 1930s, many states passed income tax statutes to meet pressing revenue requirements. Declining state property tax collections had to be offset if governmental services were to be maintained.

Then, too, it must be remembered that new revenue had to be secured in order for states to qualify for federal grants. Fifteen states adopted income taxes during the 1930s.

In the 1940s and 1950s, there was no rush on the part of other states to adopt income taxes. In 1961, West Virginia and New Jersey added the tax to their revenue statutes.

Of recent years, 16 states (Michigan and Nebraska) adopted personal income taxes; four states increased their prevailing rates on personal taxable income, and still others passed laws affecting personal income taxes, mostly resulting in a small decrease in effective rates.

There has been considerable speculation on the possibility of an income tax for the state of Illinois in recent years.

As the needs of the state for revenue have continued to increase, and as the presently employed taxes on Illinois retail sales taxes — have approached their maximum acceptable limits, the search for new sources of revenue has intensified.

In considering a state income tax for Illinois, it is first necessary to discuss some advantages and disadvantages of the tax. It is not the purpose here to advocate a state income tax, but rather to discuss the subject, develop facts and answer inquiries.

The first obvious advantage of a state income tax is that it would definitely provide more revenue for the state.

Proponents argue that this great new source of revenue cannot go untapped much longer. Another argument in favor of the income tax is that it would redistribute tax burdens between property and non-property owners and thus alleviate part of the burden of property taxpayers.

A major area of conflict between proponents and opponents of a state income tax is that of equity. The conflict arises from use of different criteria in determining what is a fair or equitable tax.

Proponents believe that a tax should be assessed according to the ability-to-pay principle. This means that those who can afford to pay more should be assessed more.

Problems arise when one attempts to measure another's ability to pay. Should income be the determinant? How much of an exemption should be allowed for dependents? How does sickness or debt affect one's ability to pay?

They and other questions seriously complicate the determination of an individual's ability to pay. It is difficult to make taxes equitable because it is impossible to determine how much worth each individual really places on each dollar.

Opponents of the state income tax do not agree with the ability-to-pay criterion. In addition to the questions posed above, they argue that an income tax would be a "class" tax.

They feel that those in the lower economic class would pay practically nothing because of deductions and exemptions. Consequently the brunt of the tax would be paid by those in the middle and upper economic classes.

They propose that the criterion of benefits received be used.

Benefits received means that those who receive the greatest benefits from a tax should pay the greatest amount of tax. Examples are the gasoline tax and the cigarette tax.

The problem with this criterion

is that those who receive the benefits are often those who can least afford to pay for them. Also, it is impossible to determine, in dollars and cents, the amount of benefits an individual receives from public schools, parks or highways.

In essence, then, a state income tax is held to be either a fair tax or an unfair tax, depending on one's point of view.

It seems that the whole question of complete equity in taxation is unresolvable. It is one thing to say, "The only fair tax is the one you pay and I don't have to pay."

Another argument in favor of a state income tax is that it would be the only progressive state tax. A progressive tax is one that increases as a percentage of the income with increases in income.

Some other state taxes, such as the property tax and the sales tax, are considered regressive because they decrease as a percentage of income with increases in income. It is felt that a state income tax would reduce the regressive nature of the total state tax system.

On the other hand, opponents argue that progressivity inhibits incentives to invest and save. They point out that the federal income tax is progressive, and they feel that this is enough tax progression.

A practical area of concern in implementing a state income tax would be the accompanying administrative costs. Proponents say administrative costs need not be excessive. They suggest that use of withholding taxes would greatly simplify matters.

Proponents of the tax argue that there would be many administrative problems. For example, taxable income would have to be defined, and accounting procedures and methods of enforcement would have to be established.

In addition, there would be the problem of what to do when taxpayers move into and out of the state. Consequently, opponents list the administrative problem as a serious disadvantage of the state income tax.

It would provide a flexible amount of revenue for the state, because returns from an income tax would reflect changing economic conditions.

Tax returns would increase in times of inflation and decrease in times of recession or depression. Proponents feel that this built-in flexibility is an asset because it would occur automatically without any adjustment of the rates.

Opponents, however, feel that built-in flexibility would be more of a hindrance than a help. For example, the fluctuating rate of a tax would complicate projections of what the tax would yield in the future.

Obviously, this would severely hinder economic planning and the conduct of public affairs.

There is one final objection to a state income tax — the problem of double taxation.

A corporation is owned by individual stockholders, when it pays taxes on its corporate income, they in fact accrue to the owners or stockholders. Normally, part of these profits is distributed to the stockholders, and part is reinvested to further growth.

If Illinois were to adopt both a personal income tax and a corporate income tax (practically all of the states that have one have both), there is a possibility of some double taxation.

An income tax would be levied on corporate income, which of course includes corporate profits. Part of the corporate profits would be distributed to the stockholders, who would become part of their personal incomes.

The state would then levy a personal income tax. Consequently, that part of corporate profits distributed to the stockholders would be taxed twice, first as corporate income and then as personal income. This is the meaning of double taxation.

Whenever a state income tax is mentioned in Illinois, the questions get around to what can be done to avoid this present 1870 state constitution.

Would the courts sustain a graduated state income tax? Would a so-called flat rate tax be sustained? Or would any such tax be sustained?

The discussion dates back to the early 1930s, and is still in the courts. Legal opinions differ sharply.

School Tax Election Offers Temporary Solution to Rising Operating Costs

Granite City school district residents have been called in order to vote on tax rate and bond issue proposals developed by a citizens' committee after a long and detailed study. Voters owe it to themselves and the district to participate; unfortunately, there is seldom a heavy vote in such elections.

If this sounds a bit familiar, it's because it is familiar. A pattern of periodic tax referendums has developed in order to cope with enrollment growth and higher operating costs. But there is one difference Saturday.

The 1968 citizens' recommendations call for the highest tax rate in the history of this community—\$1.293,000 a year, based on the present assessment total of \$212 million, and more as assessed valuation rises in the coming years.

Included on the ballot are a 40-cent increase in the educational tax, amounting to \$848,000 a year, and a 21-cent rate boost to pay for \$4,750,000 in new buildings, amounting to \$445,000 a year.

At best, the new school district rate of \$3.63 would enable it to operate "in the black" for three years or less. The "solution" would be only temporary. It is freely admitted. Additional rate increases would be sought in later elections.

Unless voters are willing to explore — and adopt — new ideas and different teaching methods in order to achieve greater efficiency and economy than is possible under the present system, there can be no permanent solution and the tax rate will continue to rise.

It is not easy to break away from tradition and the status quo; the Press-Record has been trying for over 20 years to help the community in year-round school operation.

Who is to be the first to extend the school year? To enlarge classes through altered teaching methods? To use teachers for classroom instruction the year around?

To test ideas that challenge not only teachers and students, but also parents?

Who is to be the first to leave the school? Many voters and exciting approaches are being explored elsewhere, providing for staggered vacations, variations of such a plan, and other

Christmas Cards Must Have Six Cents Postage this Year

A five-cent stamp won't do it this year.

Postmasters in the Quad-Cities—and all over the country—are issuing almost daily reminders that to mail holiday greeting cards this Christmas will require a six-cent stamp, even if the envelope is not sealed.

"It's a new Post Office Department regulation that all cards weighing one ounce or less must carry six cents postage," the postmasters point out.

The postage rate legislation that went into effect last January raised the single rate-class postage to six cents for the first two ounces. Since virtually all greeting cards weigh

less than an ounce, the first class and third-class rates are, in effect, the same.

In previous years, unsealed cards without a written message (only the signature of the sender) could be sent one cent less than first class postage. These cards were delivered as third-class mail, without the provision for forwarding or return if undeliverable.

All greeting cards with six cents postage, which are undeliverable as addressed, will be forwarded if a new address is available.

Postmasters are stressing the importance of a return address to assure that undeliverable cards will be returned. This allows mailers to keep their address lists up to date.

2 from Here Named to Women's Who's Who

Mrs. June Elots Nightwine Branding, 4003 North street, and Mrs. Carol Lynn Schuman Singletton, 2580 Iowa street, have been selected as Outstanding Young Women of America by the Outstanding Americans Foundation, which is a non-profit foundation dedicated to recognizing and honoring outstanding Americans.

Each year over 400 young women are nominated for this honor, by leading women's organizations and college alumnae associations across the country. These young women's biographical sketches are featured in the annual compilation, Outstanding Young Women of America.

Mrs. Patricia Bogle, director of the organization, announced the local residents have been honored because of their outstanding accomplishments in community service, religious and political activities, and professional endeavors.

Mrs. Esther Peterson, assistant Secretary of Labor, says the women included in the annual editions "are in the tradition of women who combine the best virtues, vision, vitality, and personal strength."

The program was conceived by the leaders of the nation's women's clubs, who felt that young women who give their time to community projects should be recognized so as to inspire others to give their time to additional civic responsibilities. Guide lines for selection include unselfish service to others, charitable activities, community service, professional excellence, business advancement, and civic and professional recognition.

Hired Farm Workers Census Next Week

The Bureau of the Census' annual national survey of hired farm workers will include households in this area, according to Director Theodore F. Olson of the bureau's regional office in Chicago. The director said that the bureau's interviewers will call on local households during the week of Dec. 6.

The survey is being done in cooperation with the U. S. Department of Agriculture in order to gather information about the nation's farm labor force. The questions about hired farm labor will be in addition to the regular monthly questions bureau interviewers ask to obtain information about employment for the Bureau of Labor Statistics in the U. S. Department of Labor.

Questions in the hired farm labor survey will be asked at determining the number of hired farm workers, the number of days worked during the year, wages, kinds of work performed, fringe benefits received by workers and average number of hours worked daily.

Households in the survey are part of a scientifically designed sample throughout the U. S. from which the Bureau collects data. All answers given by householders are confidential, and the information obtained may be used only to obtain statistical totals.

Recipients May Dispose Of Unordered Packages

Tips for handling unordered merchandise received through the mails, which usually increases in volume during the holiday season, recently were offered by Postmaster General W. Marvin Watson, who suggested, "If you don't want an unordered item—such as ties, greeting cards, pen and pencil sets or auto key rings—put the merchandise aside for a reasonable period of time, and if unclaimed, dispose of it."

"Another way," the U. S. Postmaster said, "is to refuse to accept a package you believe contains goods you didn't ask for. Just write: 'Refused—Return to Sender' on the package and put it back into the mails."

"If a person uses an item, he is legally obligated to pay in most states," Watson said. "However, New York and Illinois have enacted legislation

which makes such items an 'unconditional gift.'"

"We have found that unordered shipments trouble many postal patrons," the Postmaster General commented. "Many families mistakenly believe they have two choices: Either send back a payment, or return the package and pay postage for its return."

The officials noted that in some instances, promoters attempt to collect by sending notices which suggest a family must pay for the unordered item. "Don't be troubled by these letters," he said, "because one might charge the unauthorized mailer storage and handling costs."

Top 3 Midwest Schools Each Place 4 On All-Star Grid Team

It seems only natural that the championship team of a high school athletic conference might place the largest number of players on the all-star team at the end of the season.

But what if there are tri-champions?

The eleventh annual Press-Record all-Midwestern Conference football team—by chance, not design—has an exactly balanced representation of four members of each of the three first-place teams, Madison, Dupo and Bethalto.

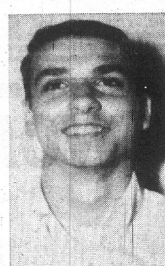

A Roxana player rounds out the top 18, increased from the usual 11 by ties for center and quarterback.

Selection of an all-star from Roxana also seems appropriate, since that school finished next to the three champions in the final league standings.

Voting by Coaches

Participating in the balloting were the head coaches of the six member schools—Alvin Yonderhaar of Madison, Paul Stewart of Dupo, Ed Hartweg of Bethalto, Mo Tschannen of Roxana, Bob Catappa of Triad and Frank Prchal of Highland.

Ghetto Needs to be Topic of SIU-SW Plan Sessions

A series of discussion sessions by Ghetto residents and professional planners of the metropolitan area will be initiated Saturday at the East St. Louis Center of Southern Illinois University-Southwestern campus to provide a greater insight into the needs and wants of the ghetto areas, it was announced today.

The sessions will be oriented to the problems of housing, employment, education, transportation and environment. The program is supported in part by a grant from Title I of the Higher Education Act of 1965, through the Illinois Board of Higher Education.

Alfred Kahn and Boone E. Hammond of the Regional and Urban Development Studies and Services staff at SIU-SW will

direct the five sessions of the project and Chancellor John S. Rendleman of the SIU-SW campus will give the keynote address at the opening session at 1 p.m. Saturday.

Conclusions of the participants will be forwarded to the program staff of the East-West Coordinating Council which has cooperated in establishing the discussion sessions.

About 200 people have been invited to participate—100 residents from the black communities of the metropolitan area and 100 men from planning agencies and government officials involved in planning processes.

In addition to Saturday's session, there will be Saturday afternoon sessions on Jan. 11, Jan. 22, Feb. 8 and Feb. 22.

This used car is guaranteed 100%.

Introducing a used car guarantee. It doesn't come with every car.

It's a 100% guarantee. Not one of those "we-pay half-on-payroll" deals. And it comes only with used cars that pass the Volkswagen Top-Gut Inspection and Performance Test. This is how it works. When we get a car as a trade-in, we give it the inspection. Check it out completely. If it passes, we tune up, tighten, repair or replace everything that needs tuning up, tightening, repairing or replacing. Then we guarantee it 100% repair or replacement of all major mechanical parts for 30 days or 1000 miles. What kind of cars get our guarantee sticker? Chevs, Fords, Rambles, VWs. (We get all kinds of trade-ins for new Volkswagens.)

So, the next time somebody tries to sell you a used car that's "just like new," ask about the guarantee. Then remember us. No, our used cars aren't "just like new." No used car can be. But no used cars could be in better shape, either.
